Adaptation of the Programme of Study to accommodate Recovery Learning

In the Yr 10 Media group, 2 students have joined us from Construction.

In order to integrate them, alongside helping the established students 'recover' I intend to run the course from the AQA Suggested 1 Year Scheme of Work. This will allow us to cover all the content and also give us time to complete the NEA component in the course before preparation for mock exams in the second half of term 1 in Yr 11.

There will be focus on the elements of the course we did not start in Yr 9 to begin with so that all students are tackling new content together to avoid the new students feeling 'like fish out of water.'
