Joe Biden has now been elected as the new President in America and Kamala Harris as the new Vice President, they will start their roles in January 2021.

Following the Presidential election in America held on the 3rd November, Joe Biden is expected to have won the race to become the next US president, meaning a defeat over current President Donald Trump. It is thought that Mr Biden has won the key state of Pennsylvania, meaning he is highly likely to win once all the votes are counted (as this takes him past the total of 270 electoral college votes needed to become President). Donald Trump's team hasn't accepted defeat yet and said it will fight on. It's also a historic day for the newly elected Vice President Kamala Harris, who will now be the first ever female Vice President of America. She's also made history as the first black woman and south Asian American to have the role of Vice President.
