Rule of Law

Most countries have rules and laws that have been put in place to tackle climate change. The COP26 climate summit brings world leaders together as although their rules and laws may vary, their aim is the same.

UN CLIMATE
CHANGE
CONFERENCE
UK 2021

IN PARTNERSHIP WITH ITALY

What are the best ways to tackle climate change?

The COP26 climate summit, one of the biggest ever world meetings on how to tackle climate change, is taking place between 31st October and 12th November 2021 and is being held in Glasgow. Prior to the summit, most countries set out their plans to reduce emissions. The Queen spoke out before the start of the event, saying she is irritated by the lack of progress on climate issues. The 95-year-old monarch spoke after the opening of the Senedd in Cardiff as she criticised those who "talk but don't do". Up to 25,000 people are expected in Glasgow, including world leaders, negotiators, and journalists. Tens of thousands of campaigners and businesses will also be there to hold events, network - and hold protests. At the end of the conference, some form of declaration is expected. Every country will be required to sign up and it could include specific commitments.

This week's news story: www.bbc.co.uk/news/uk-58923924

This week's useful video: www.wwf.org.uk/get-involved/schools/cop26

Do you think a global agreement where many countries work together will be more effective than countries working towards separate goals? Explain your thoughts with the class.

For the COP26 conference to be deemed a success to you, what kinds of decisions or goals do you think it should have achieved by its closing?
