## Tolerance

People have different ideas and opinions of how virtual reality could impact our world. It is important to tolerate and accept these ideas and opinions even if they differ from our own.

## Do we need to create a virtual universe?

Facebook founder, Mark Zuckerberg, has announced Meta, a new company brand for Facebook apps and technologies. Meta recently declared that they're changing direction from developing social media platforms to building what it's calling the next version of the internet. They've described the metaverse as a way of using the internet through virtual reality (VR). Instead of being on a computer, the concept means the user would use a VR headset to access websites and interact with others.

This week's useful video: <https://bit.ly/3oL4Xye>

Do you see the metaverse as part of the future? Ultimately, do you think it is needed and do you think the world will be a better place because of it? What do you think would be the main benefits to a metaverse? E.g. for school or work, bringing people together remotely. Which groups of people or organisations have the most to gain? What do you think are the drawbacks? Do you think a virtual life could ever be better than your real one?

# What happens if I've been stopped by Lancashire Police?

Section 59 of the Police Reform Act allows police to give road users a warning if they are reported to have used their vehicle in a manner which causes alarm, distress or annoyance.

**Lancashire Police also have the powers to seize vehicles - please make sure you keep your e-scooter on private land so this doesn't happen to you.**
