

We are co-leaders of the Resilience Revolution in Blackpool and want to offer some guidance and tips about staying resilient during the coronavirus outbreak.

We have put together this pack with information and ideas for what you can do if you are staying indoors. Most young people will remember how it felt during this time rather than the actual virus itself, so we want to encourage you to stay calm, be resilient and make the most of your time together during isolation.

This is our first issue of this pack. We hope to collect and collate more information over the coming days and will add to this pack over time. If you have ideas you think will be helpful please send them in!

You can email us on headstart@blackpool.gov.uk

The Resilience Revolution is a whole town approach to addressing the mental health needs of children and young people in Blackpool. We are doing this by building a social movement; one that both supports individuals to overcome challenges and develop their resilience (by taking steps or actions that we call 'Resilient Moves'), and through tackling structural inequalities that impact on people's lives (taking action alongside the community to level out the playing field).

We call this;

"beating the odds whilst also changing the odds".

If you want to learn more about resilience and the Resilience Revolution, you can visit

www.rrblackpool.org.uk or www.boingboing.org.uk

Whilst we may have to take steps to keep at a physical distance from one another, we are keen to do all we can to keep us connected with you and each other. #ResilienceRevolution

RESILIENCE FRAMEWORK

A FAMILY VERSION

A tool for building family resilience

“Using the framework in my family home has had a positive impact, it helps identify our strengths and provides us with ways of coping and bouncing forward when we face tough times” (Blackpool parent)

The Resilience Framework consists of 42 resilient moves. A resilient move is an everyday action or step that evidence tells us can help build resilience.

The family version of the Resilience Framework has been adapted from the original produced by Hart & Blincow with Thomas (2007). A group of parents and carers from Blackpool, known as the ‘Parents of the Revolution’ have co-produced this version, building on previous work by Newport Mind. As a group of parents and carers, we want to make sure the framework is clearly meaningful and practical for a family group to use.

When we use the term family, we believe this should be about what is meaningful to each unique family unit. For some this can include parents, children, grandparents, foster parents, cousins, friends, members of a support group and so on.

When we talk about resilience, we use the Boingboing definition which is about “beating the odds whilst also changing the odds”. This means we recognise that inequality can play a big part in making things tougher, so as well as suggesting practical steps that families can make to build resilience, we challenge services and systems to take responsibility for making the resilient moves possible too.

We think the Family Version might be of particular use during this time.

Please use the framework on the following page to draw your attention to the positives that are around you. Highlight as a family all the resilient moves that you are already doing.

We are proud to be from Blackpool and have chosen landmarks from our town to represent our ideas. If you are using the framework in another town or city, you could adapt this for your area.

A bucket and spade represents the **Basics** as they are the tools needed to build a foundation.

Blackpool Tower is a landmark that residents gain a sense of **Belonging** from when they see it.

A Blackpool tram highlights that **Learning** is a journey.

The Big One represents **Coping** as a roller coaster as there may be ups and downs but it's about staying on track.

The Big Wheel is used to illustrate the compartments that makes up a person's **Core Self**.

The **Noble Truths** are displayed in the pillars of a pier and is representative of how they are used to underpin and hold the framework together.

- **Accepting** - where and who you are right now
- **Conserving** - holding on to the things that are going well
- **Commitment** - keep going together even when it's tough
- **Enlisting** - getting the right support, at the right time from the right people

Top Tips for Staying at Home:

- **Keep a routine:** Have a purpose to your day, begin by setting your alarm, getting up in the morning, getting washed and dressed. Make a routine of different things to do throughout your day e.g. baking, creative time, drawing time, reading, gaming, film time. Having a routine will help you sleep at night.
- **Get children to help out:** This is a good time to learn new life skills – cooking, cleaning, planting seeds in the garden, DIY jobs around the house.
- **Talk about worries:** Talk about what is happening in the news and any worries you each may have. Create a safe space to talk where you won't be interrupted. Explore anything your family may be anxious about and then try to end these conversations on a positive note. Speaking about things you are grateful for is a good way to turn a negative conversation into a positive. e.g. we are okay and healthy, we still have our house where we are safe, we have a bed to sleep in, we have food to eat etc. Use the Resilience Framework to help you if you are struggling to see the positives.
- **Exercise when possible:** Go for a walk (unless in social isolation) or search online for free exercise routines. There are some great yoga videos for children on YouTube and the Body Coach posts free workouts for those wanting a more intense workout. Exercise helps to release endorphins that can help us feel better during stressful times.
- **Take the Resilience Challenge** – Use the Resilience Framework to make one Resilient Move a day and share your achievements with your friends on social media. We are thinking of setting up a #ResilientMove campaign for people to connect and share their ideas....watch this space!
- **Understand the facts** - There will be lots of stories and information being shared about coronavirus, make sure you only follow official sources and share medical advice from the NHS. If the 24-hour news is making you anxious, think about only reading a few headlines a day and limiting how much you see.
- **Eat well** – If your food shopping looks a little different at this time, use this as an opportunity to try something different. YouTube has loads of videos you can cook along with.
- **Relax** – Try mindfulness, yoga, reading a book, colouring or any other activity that you find relaxing. There are lots of mindfulness activities on YouTube or download the free Headspace app on your phone.
- **Stay connected** – If you have access to it, use technology to stay in touch. Phone your friends, family, and neighbours regularly. Wherever you can, help people in your life who may be more vulnerable. Spend time connecting with the people you are living with - mealtimes could be spent as family time where you discuss what to do the next day.

Crafty Things to Do

Get creative with things you would usually throw away – jars, yoghurt pots, boxes etc. You can make rockets with old bottles, tissue box monsters or skittles with kitchen roll tubes!

You could also try your hand at some origami. All you need is a square piece of paper and one of the many tutorials you can find online. Why not give this origami rabbit a go with Easter on its way.

1. Fold your paper in half to make a triangle
2. Fold the creased side of the triangle about a centimetre
3. Fold one side toward the centre
4. Match it on the other side
5. Turn it around and fold the bottom up about 2cm
6. Flip it over
7. Fold the top point inside to make the top of the head
8. Give your rabbit a face.

Most young kids will remember
**how their family home felt
during the coronavirus panic**
more than anything specific about the virus

Our kids are watching us and learning about
how to respond to stress and uncertainty.

Let's wire our kids for resilience, not panic.
