Nearby Share

Nearby Share is a system which allows for the transferring of data, such as images or videos, over wifi and Bluetooth.

Stay Safer on Android Devices by following the instructions below:

Enable Privacy Settings

- Go to **Settings**.

- Select **'Nearby share'**.

- Select **'Hidden'** or **'Contacts'**.

- Select who is able to send you data over Nearby Share.

- Tap **'Save'**.

(We DO NOT recommend keeping your settings on 'Everyone' all the time!)
