

MOORGATE SEND REMOTE PROVISION 2020-21

Overview of SEND Remote Provision

At Moorgate, it is our aim to provide all children with an inclusive education, giving them the best possible chance to reach their full potential. We strive to raise achievement and aspirations for **all** children.

What Remote Learning looks like at Moorgate.

Learning definitely looks a little different at the moment. Pupils are engaging in a blended learning approach to ensure those at home and those within the classroom are accessing the same lessons. A range of lessons are being taught right across the curriculum rather than limited to simply Maths and English to ensure your child has a rounded and engaging learning experience. Each year group is using Teams and staff are still available via Dojo or telephone to all parents.

- **Year 5 and 6:** Our Upper Key Stage 2 classes have access to live lessons from 9am to 3:30pm every day via Teams. In addition to this, instructions are recorded and uploaded onto SeeSaw allowing pupils to revisit the learning should they need to. The work for that day is all uploaded onto SeeSaw for those working remotely and in the classroom.
- **Year 1, 2, 3 and 4:** Our Key Stage 1 and Lower Key Stage 2 classes have a mixture of live and pre-recorded lessons each day from 9am to 3:30pm. Live lessons are delivered on Teams and pre-recorded videos are uploaded to SeeSaw.
- **Nursery and Reception:** Daily videos are uploaded on Dojo. This includes pre-recorded sessions and recording activities taking place in the setting. Staff are also available to offer support daily from 9am to 3:30pm via Dojo.

How will you work with me to help my child who needs additional support from adults at home to access remote education?

Fortnightly check-in meetings are held between class staff and the SENDCO. Staff contact the SENDCO with any concerns outside of the planned meeting times.

Pupils are set age appropriate work/tasks which are supported by teacher/TA recorded/live input. Staff are in contact with parents/carers to support where needed. Tasks using equipment in the home and play activities are also provided.

If my child does not have digital or online access at home, how will you support them to access remote education?

We ask that where there is no suitable access to devices, parents/carers contact the school office by phone or email. School will arrange the loan of appropriate equipment.

Where there is no appropriate internet connection, school will support parents in applying for an increase in their mobile data allowance or we will supply them with a free sim card that gives them unlimited Wi-Fi for 90 days. If neither of these options are suitable, we will apply for routers or dongles.

Following the offer of loaned equipment and internet support, if parents still require printed materials, then school will arrange for this to be provided. Much like with the packs, parents can collect or we will drop off resources when required.
