## Recognising, Finding, Naming and Writing Fractions inc. Equivalent Fractions

- |   |   |  |  |  |   |
|---|---|--|--|--|---|
| <ul style="list-style-type: none"> <li>▪ recognise, find and name a half as one of two equal parts of an object, shape or quantity</li> <li>▪ recognise, find and name a quarter as one of four equal parts of an object, shape or quantity.</li> </ul> | <ul style="list-style-type: none"> <li>▪ recognise, find, name and write fractions <math>\frac{1}{3}</math>, <math>\frac{1}{4}</math>, <math>\frac{2}{4}</math> and <math>\frac{3}{4}</math> of a length, shape, set of objects or quantity</li> <li>▪ write simple fractions for example, <math>\frac{1}{2}</math> of 6 = 3 and recognise the equivalence of <math>\frac{2}{4}</math> &amp; <math>\frac{1}{2}</math>.</li> </ul> | <ul style="list-style-type: none"> <li>▪ recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators</li> <li>▪ recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators</li> </ul> | <ul style="list-style-type: none"> <li>▪ recognise and show, using diagrams, families of common equivalent fractions</li> <li>▪ recognise and write decimal equivalents of any number of tenths or hundredths</li> <li>▪ recognise and write decimal equivalents to <math>\frac{1}{4}</math>, <math>\frac{1}{2}</math>, <math>\frac{3}{4}</math></li> <li>▪ compare numbers with the same number of decimal places up to two decimal places</li> </ul> | <ul style="list-style-type: none"> <li>▪ recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements &gt; 1 as a mixed number [for example, <math>\frac{2}{5} + \frac{4}{5} = \frac{6}{5} = 1\frac{1}{5}</math>]</li> <li>▪ read and write decimal numbers as fractions [for example, <math>0.71 = \frac{71}{100}</math>]</li> <li>▪ recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents</li> <li>▪ recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal</li> <li>▪ identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths</li> </ul> | <ul style="list-style-type: none"> <li>▪ use common factors to simplify fractions; use common multiples to express fractions in the same denomination</li> <li>▪ identify the value of each digit in numbers given to three decimal places and multiply and divide numbers by 10, 100 and 1000 giving answers up to three decimal places</li> <li>▪ associate a fraction with division and calculate decimal fraction equivalents [for example, 0.375] for a simple fraction [for example, <math>\frac{3}{8}</math>]</li> <li>▪ recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.</li> </ul> |
|---|---|--|--|--|---|

## Counting & Ordering

- |  |  |   |   |
|--|--|---|---|
| <ul style="list-style-type: none"> <li>▪ count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10</li> <li>▪ compare and order unit fractions, and fractions with the same denominators</li> </ul> | <ul style="list-style-type: none"> <li>▪ count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.</li> <li>▪ round decimals with one decimal place to the nearest whole number</li> </ul> | <ul style="list-style-type: none"> <li>▪ read, write, order and compare numbers with up to three decimal places</li> <li>▪ compare and order fractions whose denominators are all multiples of the same number</li> </ul> | <ul style="list-style-type: none"> <li>▪ compare and order fractions, including fractions &gt; 1</li> </ul> |
|--|--|---|---|

## Adding, Subtracting, Dividing & Multiplying Fractions

- |  |   |   |   |
|--|---|---|---|
| <ul style="list-style-type: none"> <li>▪ add and subtract fractions with the same denominator within one whole [for</li> </ul> | <ul style="list-style-type: none"> <li>▪ add and subtract fractions with the same denominator</li> <li>▪ find the effect of dividing a one- or two-digit number by</li> </ul> | <ul style="list-style-type: none"> <li>▪ round decimals with two decimal places to the nearest whole number and to one decimal place</li> </ul> | <ul style="list-style-type: none"> <li>▪ add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions</li> </ul> |
|--|---|---|---|

example,  $\frac{5}{7} + \frac{1}{7} = \frac{6}{7}$ ]

10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths

- add and subtract fractions with the same denominator and denominators that are multiples of the same number
- multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams
- multiply simple pairs of proper fractions, writing the answer in its simplest form [for example,  $\frac{1}{4} \times \frac{1}{2} = \frac{1}{8}$ ]
- divide proper fractions by whole numbers [for example,  $\frac{1}{3} \div 2 = \frac{1}{6}$ ]
- multiply 1-digit numbers up to 2 decimal places by whole numbers
- use written division methods with an answer up to 2 decimal places

### Problem Solving

- solve problems that involve all of the above.
- solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number
- solve simple measure and money problems involving fractions and decimals to two decimal places.
- solve problems involving number up to three decimal places
- solve problems which require knowing percentage and decimal equivalents of  $\frac{1}{2}, \frac{1}{4}, \frac{1}{5}, \frac{2}{5}, \frac{4}{5}$  and those fractions with a denominator of a multiple of 10 or 25.
- solve problems which require answers to be rounded to specified degrees of accuracy

## Ratio and Proportion

1

2

3

4

5

6

### Ratio and Proportion

- solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts
- solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison
- solve problems involving similar shapes where the scale factor is known or can be found
- solve problems involving unequal sharing & grouping using knowledge of fractions & multiples.

Measurement	1	2	3	4	5	6
<b>Calculating</b>					<ul style="list-style-type: none"> <li>use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling.</li> </ul>	<ul style="list-style-type: none"> <li>solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate</li> </ul>
<b>Measuring length, mass, temperature, capacity (volume), perimeter &amp; area</b>	<ul style="list-style-type: none"> <li>compare, describe and solve practical problems for: <ul style="list-style-type: none"> <li>lengths and heights [for example, long/short, longer/shorter, tall/short, double/half]</li> <li>mass/weight [for example, heavy/light, heavier than, lighter than]</li> <li>capacity and volume [for example, full/empty, more than, less than, half, half full, quarter]</li> <li>time [for example, quicker, slower, earlier, later]</li> </ul> </li> <li>measure and begin to record the following: <ul style="list-style-type: none"> <li>lengths and heights</li> <li>mass/weight</li> <li>capacity and volume</li> <li>time (hours, minutes, seconds)</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>compare and order lengths, mass, volume/capacity and record the results using &gt;, &lt; and =</li> <li>choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels</li> </ul>	<ul style="list-style-type: none"> <li>measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml)</li> <li>measure the perimeter of simple 2-D shapes</li> </ul>	<ul style="list-style-type: none"> <li>Convert between different units of measure [for example, kilometre to metre; hour to minute]</li> <li>measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres</li> <li>find the area of rectilinear shapes by counting squares</li> <li>estimate, compare and calculate different measures, including money in pounds and pence</li> </ul>	<ul style="list-style-type: none"> <li>convert between different units of metric measure (for example, kilometre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)</li> <li>understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints</li> <li>measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres</li> <li>calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm<sup>2</sup>) and square metres (m<sup>2</sup>) and estimate the area of irregular shapes</li> <li>estimate volume [for example, using 1 cm<sup>3</sup> blocks to build cuboids (including cubes)] and capacity [for example, using water]</li> </ul>	<ul style="list-style-type: none"> <li>use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places</li> <li>convert between miles and kilometres</li> <li>recognise that shapes with the same areas can have different perimeters and vice versa</li> <li>recognise when it is possible to use formulae for area and volume of shapes</li> <li>calculate the area of parallelograms and triangles</li> <li>calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm<sup>3</sup>) and cubic metres (m<sup>3</sup>), and extending to other units [for example, mm<sup>3</sup> and km<sup>3</sup>].</li> </ul>

## Money

- recognise and know the value of different denominations of coins and notes
- recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value
- add and subtract amounts of money to give change, using both £ and p in practical contexts
- estimate, compare and calculate different measures, including money in pounds and pence
- find different combinations of coins that equal the same amounts of money
- solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change

## Time

- sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]
- recognise and use language relating to dates, including days of the week, weeks, months and years
- tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.
- compare and sequence intervals of time
- tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times
- know the number of minutes in an hour and the number of hours in a day.
- tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks
- estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight
- know the number of seconds in a minute and the number of days in each month, year and leap year
- compare durations of events [for example to calculate the time taken by particular events or tasks].
- read, write and convert time between analogue and digital 12- and 24-hour clocks
- solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days.
- solve problems involving converting between units of time

## Geometry - Shapes

1

2

3

Geometry –  
Position & Direction

1

2

3

4

5

6

**Describing**

- describe position, direction and movement, including whole, half, quarter and three-quarter turns.

- use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise).

- describe positions on a 2-D grid as coordinates in the first quadrant
- describe movements between positions as translations of a given unit to the left/right and up/down

- identify, describe and (represent) the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.

- describe positions on the full coordinate grid (all four quadrants)

**Representing**

- order and arrange combinations of mathematical objects in patterns and sequences

- plot specified points and draw sides to complete a given polygon.

- (identify, describe and) represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.

- draw and translate simple shapes on the coordinate plane, and reflect them in the axes.

Statistics	1	2	3	4	5	6
<b>Representations</b>		<ul style="list-style-type: none"> <li>interpret and construct simple pictograms, tally charts, block diagrams and simple tables</li> </ul>	<ul style="list-style-type: none"> <li>interpret and present data using bar charts, pictograms and tables</li> </ul>	<ul style="list-style-type: none"> <li>interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.</li> </ul>	<ul style="list-style-type: none"> <li>complete, read and interpret information in tables, including timetables.</li> </ul>	<ul style="list-style-type: none"> <li>interpret and construct pie charts and line graphs and use these to solve problems</li> </ul>
<b>Problem Solving</b>		<ul style="list-style-type: none"> <li>ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity</li> <li>ask and answer questions about totalling &amp; comparing categorical data.</li> </ul>	<ul style="list-style-type: none"> <li>solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.</li> </ul>	<ul style="list-style-type: none"> <li>solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.</li> </ul>	<ul style="list-style-type: none"> <li>solve comparison, sum and difference problems using information presented in a line graph</li> </ul>	<ul style="list-style-type: none"> <li>calculate and interpret the mean as an average.</li> </ul>

Algebra	1	2	3	4	5	6
<b>Algebra</b>						<ul style="list-style-type: none"> <li>use simple formulae</li> <li>generate and describe linear number sequences</li> <li>express missing number problems algebraically</li> <li>find pairs of numbers that satisfy an equation with two unknowns</li> <li>enumerate possibilities of combinations of two variables.</li> </ul>
