Key questions...

Can you notice a difference in how exercise makes you feel physically?

Can you describe what your body feels like after an event? Can you notice a change in your heart rate?

Are there some activities that make you feel more or less tired? What part of your body can you feel working? Do you know what muscles are being used?

Key Vocabulary:

- fitness speed
 - steady pace
- balance agility
- control
- progress

strength

- co-ordination muscle
- stamina

Teacher Glossary

Agility: The ability to change direction quickly and easily. **Balance:** The ability to stay upright or stay in control of body

Co-ordination: The ability to move two or more body parts at the same time, under control, smoothly and efficiently. Stamina: The ability to move for sustained periods of time. Power: Speed and strength combined.

What are fundamental skills?

Fundamental movement skills are a specific set of gross motor skills that involve different parts of the body. When confident and competent in these skills, children can develop more complex movement skills and apply these to recreational, activity or sport-specific situations.

Key Vocabulary:

decelerate

stability

• transfer

Teacher Glossary

Balance: The ability to maintain stability when stationary (static balance) or when moving (dynamic balance).

Jump: Take off and land on two feet.

Hop: Take off on one foot and land on the same foot.

Accelerate: Speed up.

Decelerate: Slow down. Used when stopping or turning.

Tension: using body tension to help to balance when stopping or

landing.

Performance Ideas

Performing in front of the class can be a daunting task for some pupils. Be mindful to introduce this gradually by encouraging pupils to perform without forcing them. Performance is an important part of dance but can also be time consuming if not structured correctly.

Performing, some good ideas:

- Create an environment in which pupils feel safe to perform by teaching the audience how to be respectful.
- Help the audience to structure their feedback with positive comments first, followed by areas to improve.
- Encourage pupils to use the correct dance terminology in their feedback.
- Ways to perform: half the class to the other half, one individual to another, one pair to another, three groups at a time etc.

Key Vocabulary:

- unison explore create feedback
- perform timing levels flow
- dynamics of expression of actions

Teacher Glossary

Counts: A performer uses counts to stay in time with the music and

/ or other performers.

Action: The movement a dancer does e.g. travel, jump, kick.

Level: High, medium and low.

Pathway: Designs traced in space (on the floor or in the air). **Unison:** Two or more dancers performing the same movement

at the same time.

Canon: Performing movements one after the other.

Formation: where dancers are in relation to each other.

Dynamics: How a movement is performed e.g. robotically, softly.

Ways to improve a sequence

- Starting and finishing position: Include a starting and finishing position.
- **Level:** Use a variety of levels. Can you explore that balance, shape, jump on a different level?
- Action: Include a variety of actions such as a jump, balance, travel,
- shape.
 - **Balance:** Hold your balances with good extension and clear shapes for 3 5 seconds.
- Body tension: Squeeze your muscles to create and hold strong clear
- **Direction:** Vary the direction used within a sequence e.g. forwards, backwards, sideways.
- Speed: Vary the speed used within a sequence e.g. fast and slow.

Key Vocabulary:

- matching contrasting sequence
- explore control shape create

Teacher Glossary

Shapes: E.g. tuck, pike, straddle, dish, arch, star, front support, back support. **Action:** The skill a gymnast uses in their sequence e.g. travel, jump, shape, balance, roll.

Point balance: A balance on a small body part e.g. hands, elbows, feet.

Patch balance: A balance on a large body part e.g. back, stomach, bottom.

Sequence: A number of actions linked together.

Body tension: Squeezing muscles to help to stay strong when performing actions. Having good body tension improves the quality of an action.

How to win a point

A player wins a point when:

- . Opponent hits the ball in the net.
- . Opponent hits the ball out of the court area.
- Opponent misses the ball.
- Ball bounces twice
- Opponent does a double fault (meaning if they serve the ball and it hits the net, doesn't land on their opponent's side, they can have another go. If they miss again it is a double fault.)

Key Vocabulary:

- ready position
 racket
 track
 rally
- control return opponent accurately

Teacher Glossary

Forehand: A stroke where the player hits the ball with their palm facing forward.

Backhand: A stroke where the player hits the ball with a swing that comes across their body.

Ace: A serve that is a winner without the receiving player being able to return the ball.

Baseline: The line indicating the back of the court.

Face: The top part of the racket that has the strings and is meant to hit the ball.

Why OAA?

Team building games are a great tool for helping your pupils learn to work together, listen carefully, communicate clearly and think creatively. They also give your pupils the chance to get to know each other, build trust as a class and develop vital life skills.

Top tips for teaching Team Building:

- Encourage your class to think independently whilst working collaboratively.
- Mix up who the children work with. Working with children whom they have different relationships with allows them to develop a new set of social skills.
- Build on the learning in the lessons by identifying when these positive behaviours are used in different situations throughout the school day.

- orientate

Teacher Glossary

Orientate: To find your location in relation to a map.

Control: Is what the pupils are looking for and are referenced on a map.

Course: The route chosen for the controls which need to be visited in order.

Symbol: A sign, shape or object representative of different features on a map. E.g. a triangle for a mountain.
