

Year 1 homework – Term 3

Here are some ideas to complete for homework. You don't have to do everything on the list, just choose a couple that you like the sound of.

Please send your homework in on Class Dojo or bring it into school by Tuesday 11th February.

- Our value this term is Gratitude. Make a poster or create a comic strip about our value this term.
- Our topic is based on Poles Apart by Jeanne Willis. The penguin family visited lots of different countries. Why don't you choose a country and find out about it? What does its flag look like? What is the capital city? What money do they use? Where is it on a map?
- In Geography, we are learning the names of the seven continents and oceans of the world. Can you name all of the continents?
- In Science, we are learning about animals. We are learning about the difference between carnivores, herbivores and omnivores and we will be looking at what features different animals have. Why not choose an animal to find out more about. Can you find out what it eats and what it looks like?
- Make a penguin. You could use anything to make one - recycled materials, playdough, fabric, paints, collage, lego or why not try to make a penguin biscuit or cake!
 - Keep working on your spellings and try to read at least three times each week.
 - Log into your Numbots account to complete some challenges.

Thank you for all of your support.
