

Homework – Term 5

Here are some ideas to complete for homework. You don't have to do them all, just choose a couple to do.

Our topic is based on 'The Pirate Cruncher' by Jonny Duddle

- Our value this term is cooperation. You could play a family board game together. Want a 2 player challenge? Get 2 spoons and a balloon or round object (a marble or ball) Each player takes a spoon. Working together, can you pick up the balloon and carry it across the room using just the spoons?
- For Geography you could create your own treasure map. Hide some treasure in your house or garden, make a map and ask someone to follow your map to the treasure.
- In Computing we are exploring digital music. Make your own music online. Google – 'song maker - chrome music lab' for a fun way of making your own music.
- For Art, you could create your favourite toy. You could draw, paint, use playdough, construction kits or try making a junk model toy.
- Can you put your spelling words into sentences?
- Log in to Numbots and complete some challenges.
- Keep working on your spellings and reading.

You could bring in any homework completed or post photos on Dojo by Wednesday 21st May.

Thank you for all of your support.
