

English

In English, we will be watching an animation called 23 degrees and 5 minutes. We will be using this to inspire our narratives and coming up with our own ending. We will be learning to use relative pronouns, relative clauses and dialogue accurately.

Art

Our art this term will involve creating printing blocks to create a piece of Greek inspired artwork using our printing blocks. We will also be focussing on ancient Greek architecture and designing our piece of artwork based on The Parthenon.

Design Technology

This term in DT we will be looking at food and cooking. We will have a go at carefully and hygienically preparing some Greek inspired food and tasting it!

Music

Our music this term will be rehearsing our clarinets and our singing in preparation for the Y4/5/6 Music Extravaganza.

Maths

This term in maths we will be finishing off our learning by looking at recognising and measuring angles, and finally finishing off the year with some statistics work.

Religious Education

In RE this term, we are going to be asking ourselves the question: What is the best way for a Christian to show commitment to God?

Year 5
Term 6

Physical Development

This term, we will be playing tag rugby and Rounders. In both games, we will develop throwing, catching, speed and teamwork skills.

History

History will be all about The Ancient Greeks this term. We will look at the Ancient Greek civilisation, what life was like in Ancient Greece, Greek Gods and Goddesses and the origins of the Olympics amongst other interesting things.

Geography

In Geography, we will be learning about latitude, longitude, the tropics and the polar circle. We will be using grid references on maps and learn how to read atlases with 4 and 6 figure grid references.

PSHE

This term in PSHE we will be covering RHSE. We will be looking at self-image within today's society as well as learning how to deal with different relationships and friendships with tolerance. Boys and girls will also learn about puberty.

Computing

Computing this term will be looking at actions and outcomes. The children will delve into the idea of cause and effect and work on using this to create their very own quiz. We will use key terms such as 'conditions' and 'outcomes' to help us. We will evaluate our quiz and how effective it is.

Science

For science this term we will be covering a variety of topics and touching on some previous learning throughout the year to further embed this. We will be conducting lots of investigations and experiments to develop of skills on conducting fair tests.
