

English:

Write a story inspired by a trip to the ocean or the beach. Remember to include conjunctions, paragraphs, speech and write it in the past tense.

PE:

Take part in your own mini sports day. Try to include some of the running, throwing and jumping events we have explored this term.

Science:

Go on a walk and look for different living things in your local habitat. Draw a tally chart to show the amount of each different thing you've seen. Remember to include plants as well as animals.

Geography:

Make a map of your local area and draw different symbols for each of the different features, including wooded areas and rivers.

PHSE:

Create an illustrated timeline of your life. Include the ways in which you have changed (taller, started walking/talking) and some of your achievements.

Maths:

Practice telling the time using a range of formats (12-hour analogue and 24-hour digital). How many different places can you find the time displayed?

Year 4
Homework Web
2024

Music:

Write a song encouraging people to look after our oceans.

French:

Create a poster for your favourite animal. Include descriptions and your opinions of that animal.

Art:

Draw or paint a picture of a sea creature, inspired by the work of Kay and Kim Vaudin.

Computing:

Use the skills learnt in class to program your own game using Scratch or any other programming software. Your game should include animals or be about the environment.

RE:

Draw a picture of a place that is special to you. Write underneath a few sentences explaining why it is special to you.
