

English:

Write a story inspired by the circus. Try to include the skills we have learnt this term. Make sure you punctuate speech properly.

PE:

Take part in your own mini sports day. Try to include some of the running, throwing and jumping events we have explored last term.

Science

Find and make a list of as many appliances in your home that are powered by the mains, a battery, or both.

Geography:

Research a place in Europe. Choose how to present your research, it could be a poster, a PowerPoint or a leaflet.

PHSE:

Create an illustrated timeline of your life. Include the ways in which you have changed (taller, started walking/talking) and some of your achievements.

Maths:

Find different objects in your house and measure the length of them. What's the smallest length? What's the biggest length?

zap!

Year 3&4
Homework Web
Term 6

Music:

Practise singing some of the Music Extravaganza songs in front of a small audience or a mirror.

French:

Draw some music instruments and write down the French words for them.

DT:

Design a light up toy. Think about what materials would work best and how you would incorporate a circuit to make it light up.

Computing:

Use the skills learnt in class to program your own game using Scratch or any other programming software. Your game should include animals or be about the environment.

RE:

Draw a picture of a place that is special to you. Write underneath a few sentences explaining why it is special to you.
