

English:

Write a diary entry as if you are an explorer on an expedition in Antarctica. You need to include a surprising twist and any of the skills we have practiced so far.

PE:

Use an idea from an Outdoor Adventure Activity (OAA) session and create your own challenge for your family!

Science:

Research an animal of your choice. Create a food chain for that animal and use the correct terminology to label it. Include some details on how it has adapted to survive in its habitat.

Geography:

Complete a fact file about how we are protecting Antarctica and how it is being preserved. Include pictures and explanations as to why.

PHSE:

Make a family tree showing who is in your family, including grandparents. How far can you go back?

Maths:

Write your own word problems using the 6, 7 and 9 times tables. Can you create any problems that need multiple steps to answer? Remember to include some division questions as well.

Art:

Use salt dough (recipes can be found online) or Play-Doh to create an Antarctic animal. Try using the same joining techniques learnt in class. You might also want to create a setting for your animal using cardboard.

French:

Create a poster showing the different vocabulary that you've learnt in French.

Music:

Write lyrics for a harvest song. Think about what you can see, smell and hear during this time of year. What are people doing and how are they doing it?

Computing:

Use a search engine to create a fact file about an Antarctic animal. Think about whether the information you found is honest, accurate and reliable.

RE:

Create your own list of rules people should follow to live a happy life. Write them out as though they are commandments on stone tablets.
