

### English:

Write a story inspired by the circus. Try to include the skills we have learnt this term. Make sure you punctuate speech properly.

### PE:

Take part in your own mini sports day. Try to include some of the running, throwing and jumping events we have explored last term.

### Science

Find and make a list of as many appliances in your home that are powered by the mains, a battery, or both.

### Geography:

Have a discussion at home with your family about which counties and cities in the UK you or they have visited. Which was your favourite and why?

### PHSE:

Create an illustrated timeline of your life. Include the ways in which you have changed (taller, started walking/talking) and some of your achievements.

Homework Web  
Term 6

### Maths:

Practice telling the time using a range of formats (12-hour analogue and 24-hour digital). How many different places can you find the time displayed?

### Music:

Practise singing some of the Music Extravaganza songs in front of a small audience or a mirror.

### French:

Create a poster for your favourite animal. Include descriptions and your opinions of that animal.

### DT:

Design a light up toy. Think about what materials would work best and how you would incorporate a circuit to make it light up.

### Computing:

Use the skills learnt in class to program your own game using Scratch or any other programming software. Your game should include animals or be about the environment.

### RE:

Draw a picture of a place that is special to you. Write underneath a few sentences explaining why it is special to you.
