

English:

In English this term we will be exploring the story 'Leon and the Place Between' by Angela McAllister. We will be using speech, subordinate clauses and descriptive language for setting.

DT:

In DT this term, the children will be creating light boxes. The children will design and create their own light boxes and evaluate what they have made. Children will also use their knowledge of circuits to create a light source for their box.

Maths:

In Year 3 Maths, children will explore different forms of measurement. Children will also explore what an angle is and compare different angles. As part of statistics, they will also collect and interpret data.

In Year 4 Maths, children will learn to draw and interpret bar charts and time graphs, calculate the perimeter and area of 2D shapes, and use coordinates and translations. They will also practise adding and subtracting decimals and converting units of time, length, mass, and capacity.

PE:

For PE this term, we will be doing rounders and tag rugby. In rounders, we will learn the skills of bowling the ball with accuracy and consistency. In tag rugby, we will understand the rules of playing the game and learn how to stop the other team from scoring.

Science:

For Science, we are learning about electricity. We are going to be making circuits using the equipment, testing to see what works and doesn't work. We will be learning about conductors and insulators. We will also be learning about what an appliance is and what appliances we have at home.

PHSE:

This term in PSHE our topic will be 'Changing Me. We will be discussing how bodies change over time and how to develop a positive mentality during changes.

Geography:

In Geography this term, the children are going to look at their local area and compare it to Sicily, Italy. They will look at human and physical features and what the similarities and differences are between the two places.

Zap!

Year 3/4
Term 6
2026

Music:

This term we will learn to sing some new songs and refine our recorder-playing skills, ready for the Music Extravaganza!

Computing:

In Computing, we will be creating and programming our own game using Scratch. We will look at how to use repeat functions and other tools to create a fun and interactive game.

French:

In French this term, we will learn the French words of music instruments. They will learn how to say what music instrument they play in French. They will also be able to recall country names with accurate pronunciation.

RE:

For RE this term, we will be looking at how and why Christians worship and how important the church is to Christians.
