

English:

In Reading, children will be looking at the text 'The Miraculous Journey of Edward Tulane'. They will continue to develop their reading fluency and comprehension.

In English, children will explore the text 'Mrs Noah's Pockets'. They will learn how to use speech and how to use the past progressive tense.

Science:

This term's Science topic is all about forces. This will include push, pull and learning about gravity and friction. A friction investigation will be carried out. The children will explore magnets and their properties and how the force is used within magnets.

Music:

The children will continue learning the ukulele. They will learn how to play along with different songs by learning new chords and rhythms. They will also learn some more musical terminology and look at how to read music.

PE:

This term's indoor PE focus will be gymnastics. They will focus on creating a sequence of balances and movements. There will also be opportunities to use the gymnastics equipment. The outdoor PE focus is hockey. Through hockey, the children will develop their understanding of the attacking and defending principles of invasion games.

Art:

This term the children will be looking into the work of Robin Brook. They will be exploring the use of texture and collage to create a city skyline based upon European city skylines. The children will be using a variety of media to apply their collage skills.

Journeys and Destinations

RE:

This term's RE question is 'Could Jesus heal people?' They will learn what Christians believe about miracles.

**Year 3
Term 3
2025**

Geography:

This term the children will be using Google Earth and atlases to locate Europe and identify the countries that make up Europe. They will also be looking into the similarities and differences between different European countries.

French:

The French skills this term that the children will be learning include class commands, the difference between la/le/les and un/une, plurals, items in a pencil case and Saint Valentine which is linked to Valentine's Day.

PHSE:

In PSHE this term, the children will be focusing on dreams and goals. This will include discussions about facing new learning challenges and working out the best ways to achieve them.

Maths:

This term, the children will learn how to use written methods for both addition and subtraction. They will also learn about fractions and how to compare different types of fractions.

Computing:

The children will be programming using Scratch. They will be introduced to a selection of motion, sound, and event blocks which they will use to create their own programs, featuring sequences. The final project is to make a representation of a piano.
