

Languages – Curriculum Design

Languages at Moredon Primary and Nursery School

Intent

At Moredon Primary and Nursery School we want to ensure that our pupils to take an interest in the culture and language of other countries, in particular France. We want our pupils to develop their knowledge and understanding of the language and be able to apply this in further education.

They should have knowledge taught to them that allows them to build on prior learning and begin to make links between their learning. We want children to be able to adapt their learning to appropriate situations and feel confident in their skills.

Implementation

At Moredon Primary and Nursery School, we teach French from Year 3 to Year 6. A scheme of work is followed to ensure clear progression of skills is achieved. A link has been established with a secondary school within our Federation to give the children the best possible experience during their lessons. The children benefit from receiving lessons from native speakers and teachers who are experts in that area.

We want our children to enjoy lessons and ensure this happens with using a variety of teaching methods and experiences.

Through Language Learning we aim to:

- To give pupils a positive, enthusiastic attitude to languages within a creative and multicultural environment.
- To nurture an interest in learning other languages.
- To introduce language learning in a way that is fun and enjoyable.
- To stimulate and encourage pupils' curiosity about language.
- For pupils to develop an awareness of language structure and that the structure differs from one language to another.
- To develop pupils' speaking and listening skills.
- To lay the foundations for future study.

Impact

- The courage and confidence to speak in another language with good intonation and pronunciation.
- To be able to read a simple text in another language.
- To have a passion for learning about new cultures and new languages.
- To have strong awareness for different cultures and languages.
