

PSHE – Statement of Intent

Intent: At Moredon, PSHE is always at the centre of our learning. We aim for our pupils develop the skills, attitudes and beliefs in order for them to become safe, successful and healthy in life. PSHE is taught on a weekly basis from EYFS to Year 6 in order to embed and integrate a wealth of knowledge and understanding of the children themselves, their peers, families and the wider society around them. It is our goal that the children of Moredon become morally, intellectually, emotionally, socially and spiritually secure as well as being able to safeguard themselves. We ensure this is done with lessons that inspire healthy discussions and sharing of experiences and personal views. To fit with our whole school ethos, “*Your learning journey to new horizons*” we provide strategies as well as a safe and secure place for children to learn, develop and grow mentally and physically. PSHE at Moredon is relevant and inclusive to all the beliefs, circumstances, experiences and strengths of every child and is of paramount importance in preparing our children for the ever changing and diverse world they are growing up in, in order for them to show resilience, acceptance and pride in themselves and their relationships every day.

Implementation: PSHE lessons are taught following the Jigsaw Scheme of work which enables us to teach a full and progressive curriculum that allows for clear skills to develop and knowledge progression. We have designed a curriculum which encourages mindfulness, self-worth and safety within school and home and our teachers are driven to deliver lessons which maximise learning for all children.

At Moredon, PSHE is never left to lessons alone. We also provide other learning opportunities in whole school activities such as assemblies, charity days and cross-curricular projects to ensure that PSHE learning, values and skills are seen in everyday life. Moredon are proactive in providing workshops and experiences which encourage and teach children about the importance of self-care. School Welling Boxes are available in every classroom, which provide additional recourses and strategies to help build resilience. PSHE is also implemented daily through Mindfulness Mornings to aid self-reflection.

By the end of their education at Moredon, children will have the attitudes and beliefs to be able to succeed in an adapting society. Children will be taught how to live full and aspirational lives with the knowledge and understanding of core British Values.

The Jigsaw Scheme used is comprised of 6 main topics for each term. They are: Being Me in My World • Celebrating Difference • Dreams and Goals • Healthy Me • Relationships • Changing Me.

Impact: Moredon children will leave their primary education with a strong sense of self-worth and appreciation. They will have the strategies to deal with a diverse society, both on and offline and will have a strong understanding of how to look after their mental and physical health every day. They must be resilient, confident and independent. They will be acutely aware of how to recognise changes to themselves and others as well as being able to keep themselves safe in relationships as they grow. All children will be able to form good, healthy relationships with others and will have aspirations to work towards in school and at home.
