<b>Approved by:</b>	LGB		

## Introduction

The aim of the Anti-Bullying Policy is to ensure that all members of our school community learn and work in a supportive, caring and safe environment without fear of being bullied. Bullying is antisocial behaviour and can affect anyone; it is unacceptable and will not be tolerated. A person has the right to be treated with respect and has the responsibility to treat others in the same way.

This Anti-Bullying Policy is concerned with the way in which pupils conduct themselves and interact with adults and their peers around the school. It should be read in conjunction with the Equality Policy, the Safeguarding and Child Protection Policy, the Behaviour Policy and the Online Safety Policy.

## Definition

In our school, we define bullying as any unkind, threatening or hurtful behaviour that is deliberate and persistent. With the children we use the expression 'several times on purpose' (STOP). The four main types of bullying are:

- Physical (e.g. fighting, hitting, kicking, theft)
- Verbal (e.g. name calling, racist remarks)
- Indirect (e.g. spreading rumours, excluding someone from social groups)
- Online (e.g. verbal or indirect by means of internet, mobile phone etc)

With younger children there must be a distinction made between bullying and bossiness and between bullying and boisterous play. Most young children grow out of bossiness as they become more self-controlled and learn the social skills of negotiation and compromise.

**Bullying:** "All children make friends, break friends, say horrible things to each other, are spiteful, tease and jostle for places in the pecking order of school and family. Bullying is something beyond that." Keith Sullivan: *The Anti-Bullying Handbook*: 2001

**Bullying is not:** It is important to understand that bullying is not the odd occasion of falling out with friends, name calling, arguments or when the occasional trick or joke is played on someone. It is bullying if it is done several times on purpose. Children sometimes fall out or say things because they are upset. When occasional problems of this kind arise it is not classed as bullying. It is an important part of children's development to learn how to deal with friendship breakdowns, the odd name calling or childish prank. We all have to learn how to deal with these situations and develop social skills to repair relationships.

## Identification

Our school staff must be alert to the signs of bullying and act promptly and firmly

against it in accordance with this policy. Pupils are encouraged always to show courage in reporting instances of bullying.

**Signs of bullying may include:**

- Reluctance to go out to play
- Reluctance to come to school
- Lack of concentration
- Drop in standard of work
- Physical injuries
- Withdrawn personality
- Possessions regularly going missing
- Becoming nervous and shy
- Clinging to adults
- Exhibiting atypical aggressive behaviour

**Our strategies for preventing bullying**

Pupil well-being has a high profile in our school, and the following measures are taken to create an inclusive and compassionate environment:

**School ethos** - Our school ethos focuses on providing a safe, secure, happy and caring environment to enable all children to achieve their potential. We build successful relationships with families and the community who all work together to identify and address any issues of potential bullying or communicate an anti-bullying message to the children. All adults in the school model respect for each other and for the children.

**Curriculum** - Through various curriculum activities and behaviour system, children will be taught about their responsibilities and the consequences of their behaviour. They will be taught to understand their own and other people's feelings. They are taught about friendship and relationships, fairness and justice. Issues such as prejudice against disabled people, sexism, racism and homophobia are discussed in a sensitive and age-appropriate manner. They are taught strategies for dealing with conflict with a view to preventing a situation escalating into bullying. We also run a yearly Anti-Bullying Week where the profile of the issue is raised and the children are encouraged to discuss the causes and prevention of bullying.

**Online Bullying** - In Computing, children are taught about responsible use of the internet, and approved websites support discussions. All use of the internet is closely supervised, and is in line with our Acceptable Use Policy. Children's mobile phones are not allowed in school. (Where mobile phones are brought to school for use on the way to and from school, they are handed into their class teacher and retrieved at the end of the school day.) We teach the children to understand what constitutes online bullying and we give them the skills to deal with it. We access external sources to support with our teaching of online bullying and all other areas of bullying (see Appendix A).

Assemblies and PSHE lessons ensure that the focus on Anti Bullying and Online Safety is maintained throughout the year. The Online Safety Policy applies to all

members of the school community who have access to and are users of the school IT systems. Incidents of online bullying will be dealt with within the Anti Bullying Policy and the Online Safety Policy.

**Pupil Voice** - Children are positively encouraged to report all occurrences of bullying. The School's has a 'worry box' system in place which is monitored by class teachers and the school's learning mentor (Mrs Townsend). Pupil Voice and surveys, to monitor the children's experience of bullying and the effectiveness of the policy are used annually by the Safeguarding team with children across the school.

**Personal Social and Health Education (PSHE)** – Curriculum time and resources are used for relevant units of work. Whole class interventions such as Circle Time are regularly used by teachers to enable children to explore issues and dilemmas. Children are taught that knowing about bullying by or to others and doing nothing, is unacceptable.

**Communication** – We publicise the fact that bullying is not acceptable in our school and that all allegations of bullying will be investigated. We use our prospectus, website and newsletters, as appropriate, to inform parents of our policy. All staff are made aware of the policy, and can access it in hard copy, on the school website and on the school network. It is displayed in staff rooms.

**Supervision** – All staff are watchful and observe the social relationships developing in a class. We ensure that there are no 'unsafe' areas in the school and that supervisors are able to monitor areas where children play. We ensure that Teaching Assistants and Midday Supervisory Assistants are informed of any bullying incidents, and are advised how to identify any likely incidents that might occur in the hall or in the playground.

### **Our procedures for dealing with bullying**

We have two main aims when reacting to bullying:

- 1: To make the child who has been bullied feel safe.
- 2: To encourage better behaviour from the child who has displayed bullying behaviours.

### **The following steps should be taken when dealing with incidents:**

- Incidents will be investigated immediately by the member of staff who has been approached or passed immediately onto the Principal or Assistant Principal.
- Incidents will be recorded on CPOMS under the category 'Bullying' for tracking and monitoring purposes.
- Meeting with SLT member, class teacher, parents and child carrying out the bullying (as required) to discuss and agree a plan. Meetings will be documented on CPOMS and a review meeting agreed.
- A weekly in school review meeting between child and member of staff to check progress against agreed actions will be held
- Review meeting held with SLT member, class teacher, parents and child

### **Pupils who have been bullied will be supported by:**

- offering an immediate opportunity to discuss the experience with their class teacher or member of staff of their choice
- reassuring the pupil
- offering continuous support (e.g. through the buddy system with anti-bullying monitors)
- allocating a staff mentor of child's choice.

### **Pupils who have displayed bullying behaviours will be helped to change these by:**

- discussing what happened
- discussing why they became involved
- establishing the wrong doing and need to change
- teaching of social skills
- raising empathy for the victim, and promote friendship

After support from our Learning Support Mentor the following disciplinary steps can be taken:

- official warning by the Principal to cease offending
- withdrawal of playtime/s
- internal exclusion
- exclusion from certain areas of school premises
- fixed-term exclusion
- permanent exclusion.

## **Roles and Responsibilities**

### **The Role of Governors**

- The Local Governing Body supports the Principal in all attempts to eliminate bullying from our school. The local board of governors will not condone any bullying at all in our school, and any incidents of bullying that do occur will be taken very seriously, and dealt with appropriately.
- The Local Governing Body will monitor incidents of bullying that do occur, and reviews the effectiveness of this policy regularly. The governors require the Principal to keep records of all incidents of bullying, and to report to the governors on request about the effectiveness of school anti-bullying strategies.
- A parent who is dissatisfied with the way the school has dealt with a bullying incident will be offered the opportunity to follow the complaints procedure. This process could involve governors getting involved in further investigation.

### **The Role of the Principal**

- Principals have a legal duty under the School Standards and Framework Act 1998 to draw up procedures to prevent bullying among pupils and to bring these procedures to the attention of staff, parents and pupils.

- The Principal reports to the Local Governing Body about the effectiveness of the Anti-Bullying Policy on request.
- The Principal ensures that all children know that bullying is wrong, and that it is unacceptable behaviour in this school. The Principal draws the attention of children to this fact at suitable moments.
- The Principal ensures that all staff, including lunchtime staff, receive sufficient training to be equipped to identify and deal with all incidents of bullying.
- The Principal sets the school climate of mutual support and praise for success, so making bullying less likely. When children feel they are important and belong to a friendly and welcoming school, bullying is far less likely to be part of their behaviour.

### **The Role of the Teacher and Support Staff**

- All the staff in our school take all forms of bullying seriously, and seek to prevent it from taking place.
- Teachers keep records of all incidents using CPOMS and report incidents to the DSL. If teachers witness an act of bullying, they will follow the steps outlined above.
- Staff training will take place regularly and routinely as well as in response to incidents which may arise. This equips them to identify bullying and to follow school policy and procedures with regard to behaviour management.
- Teachers use a range of methods to help prevent bullying and to establish a climate of trust and respect for all.

### **The Role of Parents**

- Parents who are concerned that their child might be being bullied, or who suspect that their child may be the perpetrator of bullying, should contact their child's class teacher immediately.
- Parents have a responsibility to support the school's Anti-Bullying Policy, actively encouraging their child to be a positive member of the school. In this school, we actively discourage children from 'fighting back'. We encourage parents to remember that they are role models for their children.
- We believe that if a child has a problem caused by someone else, then the correct way of dealing with it is to tell a grown-up. This is how the problem gets sorted out - not by retaliation or confrontation.
- Parents need to be aware of this policy in school and we ask for their support in reinforcing and implementing it.

### **The Role of Pupils**

- Pupils are encouraged to tell anybody they trust if they are being bullied, and if the bullying continues, they must keep on letting people know.
- Pupils are also taught that, as members of our school community, they have responsibilities to each other, should make their own choices and should not 'go along with the crowd'.

## **Monitoring, evaluation and review**

This policy and its implementation is monitored on a day-to-day basis by the Principal, who reports to governors on request about the effectiveness of the policy. The Anti-Bullying Policy is the Governors' responsibility, and they review its effectiveness annually. The Chair of Governors does this by examining the school's antibullying records, where incidents of bullying are recorded, and by discussion with the Principal. Governors analyse information for patterns of people, places or groups. They look out in particular for racist bullying, homophobic bullying or bullying directed at children with disabilities or special educational needs. Supervision is held on a termly basis where the safeguarding team meet to discuss concerns about the welfare of individuals, including any cases of bullying. Staff discuss next steps for individuals.

## **How we will know if this policy is effective:**

### **Specifically:**

1. The victim is no longer being bullied, evidenced verbally i.e. able to articulate positive feelings, and by positive behaviour e.g. happy, smiling, willing to participate in activities, good attendance, self-esteem is high.
2. The perpetrator is no longer bullying and their self-esteem is high.

### **Generally:**

1. Children are tolerant, assertive and well-informed as to strategies to use to combat bullying.
2. The incidents of bullying are being dealt with effectively, evidenced by parental satisfaction, positive feedback, pupil voice and circle time discussions.
