

Morton Primary School

DT Intent

Child Friendly Tagline: To design and make a product for a purpose.

At MPS, our Design and Technology curriculum is knowledge rich and ensures that key skills and **vocabulary** are reinforced in **meaningful contexts**. Key strands are deliberately constructed so the skills and knowledge needed are built upon each year. Our children will be inquisitive problem solvers who can adapt and apply their prior knowledge in an ever-changing world. Children will **follow a process of design, make and evaluate** to produce products that meet a given criteria. They will create unique products by applying and combining learning from **across an enquiry**. They will construct functional products to achieve a sense of satisfaction. Children will **adapt and improve their work** and this will aid the children to become more resilient within themselves and be **reflective of the wider world**.

At Morton Primary School...

Purposeful to give meaning and value to our learning which prepares us for our next steps.

Experiences that widen our opportunities, challenge us and allow us to see the wider world.

Targeted vocabulary and high quality texts means we become language rich.

We strive to create aspirations for ourselves, our family and our community, whilst reflecting on the difference we are making in society.

...we STEP into our curriculum!
