

## KNOWLEDGE PROGRESSION OVERVIEW– PSHE & RSE

### Features

At key stage 1 and 2, the knowledge progression takes full account of the national curriculum’s PSHE curriculum subjects of:

- Health Education
- Relationships Education

These are built up through the PSHE Association Programme core themes of:

- Health and Wellbeing
- Relationships
- Living in the Wider World

Each core theme comprises modules, 12 in total, in a spiral curriculum which builds upon previous learning:

- Health and Wellbeing – drug education; being healthy; growing up; changes; being safe.
- Relationships – exploring emotions; bullying matters; relationships.
- Living in the Wider World – being me; difference and diversity; being responsible; money matters.

- Skills are dependent on specific knowledge. A skill is the capacity to perform and in order to perform a deep body of knowledge and understanding needs to be acquired and retained.
- These knowledge statements should be what pupils retain forever. In other words, this knowledge is within their long-term memory and will be retained, enabling children to make informed choices.
- When considering pupils’ improvement in subject specific vocabulary, pupils could be provided with a knowledge organiser which contains all words used for PSHE for their age group.
