

Spring 1 Home Learning Menu – Acorn Class

English - Reading

- Log into bug club to find phonics books that are matched to your child's phonic level (passwords can be found at the back of their reading records).
- The books on bug club have a 'read to me' option so your child can enjoy listening to the story after having a go and sounding out themselves.
- Keep learning your phonics cards.

Maths

- Use a ruler or tape measure to measure the length of different objects in your home. Organise your results in a table. Which object was the longest? Which was the shortest?
- Go on a shape hunt and take photos of any real life shapes that you can see.
- Your magic number is 20! Write a range of number sentences which all have the answer 20.

Science

- Research the diets of your friends and family. What type of food do they like to eat?
- Make a bird feeder.
- Play a game - take it in turns to describe body parts to a family member for them to guess which body part you are describing.
- Discover how much the sense of smell influences the sense of taste by having a blindfold taste test with and without holding the nose.

From tiny acorns, mighty oaks grow

This homework menu is **guidance only**. There are **no compulsory elements** merely suggestions of activities that your child can complete. I hope you find them useful.

On the other hand, you may find alternative activities that you would like to complete instead. Remember to upload whatever you do onto Seesaw.

English - Writing

- Use any real life opportunity to encourage your child to write. Examples may include writing birthday cards, a shopping list, labels for objects around the house etc.
- Help your child to write their own newspaper article about the Great Fire of London.
- Learn how to spell the appropriate Common Exception Words.

Topic

- Build a 3D model of Pudding Lane
- Locate London on a map. Suggest ways in which we might travel to and from London, and why we might want to visit London.
- Bake your own bread - just like the bread from the Pudding Lane bakery!
- Draw or paint a picture of the Great Fire of London.
- Research modern-day firefighters. How are they different to the firefighters at the Great Fire of London?
- Find out about the different ways that we keep our homes safe from fire today. Your child could produce a safety poster.
- Learn London's Burning.
- Have a go at a Joe Wicks workout video from YouTube.
