A Parent's Guide to Getting Started with "Edulink One"

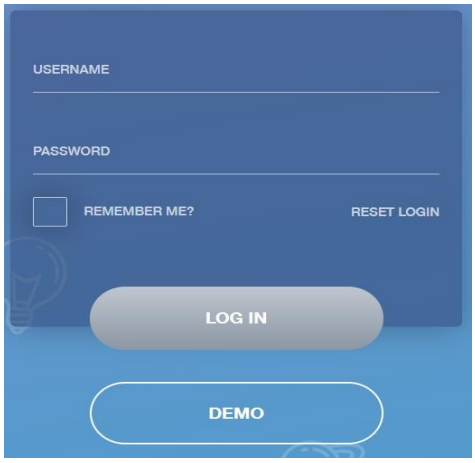

Web Browser Instructions

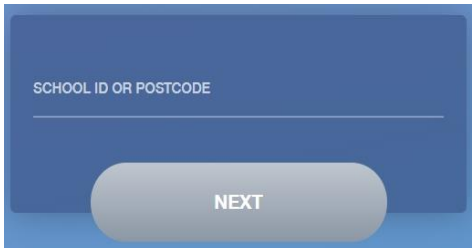

This is your school's individual login link if you use a browser to log in.

Start by going to the link on the school website or if you are not using your school's direct link, visit https://www.edulinkone.com/.

After clicking the link this will take you straight to the Edulink One login page for your school.

If you do not have a direct link, you will need to enter your **School ID** or **Postcode (MountCarmel or BB5 0LU)** and press **Next**. Your School ID will have been sent to you by school. **If you forget your username or password, please contact school.**

Enter your **Username** and **Password** that school has sent to you.

Downloading and Using the App

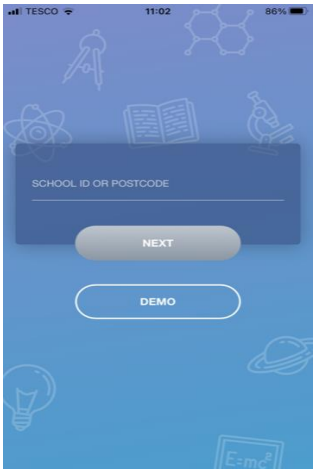

The Edulink One app is available for iOS and Android devices. You can download from these links or search in the App or Play stores.

This is followed by the **USERNAME** and **PASSWORD** screen where you need to enter the login details school has sent you.

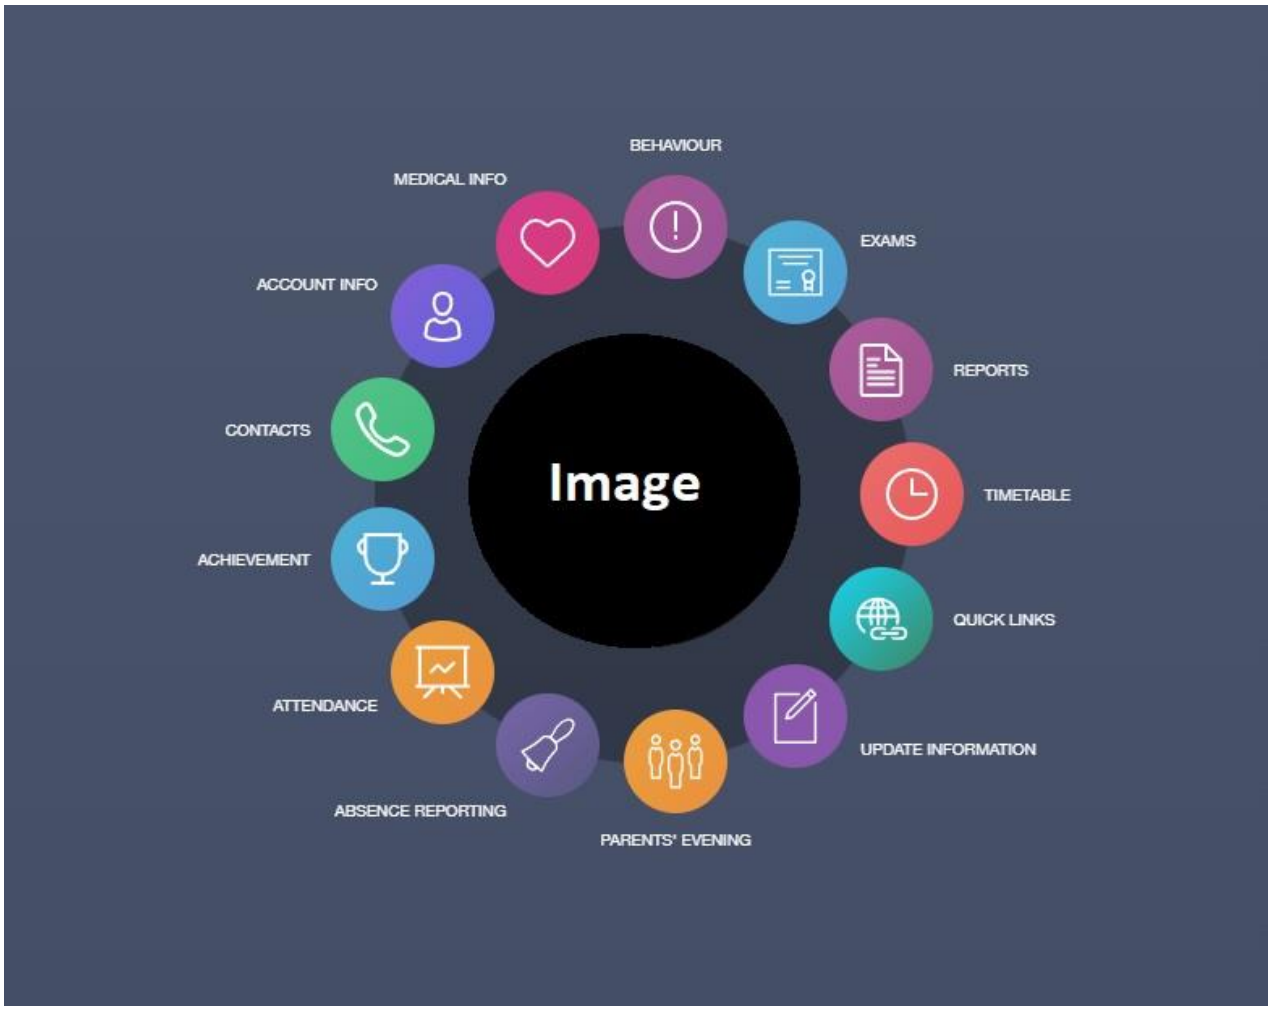

Once you have filled in all three boxes with your login details, click **LOG IN** to get started.

Main Screen

Once logged in, you will see the main screen in Edulink One. The information held in your account relates to your child/children. You will be able to navigate through the different sections of Edulink One by clicking on the icons, e.g. to view your child's attendance, click the **Attendance** icon.

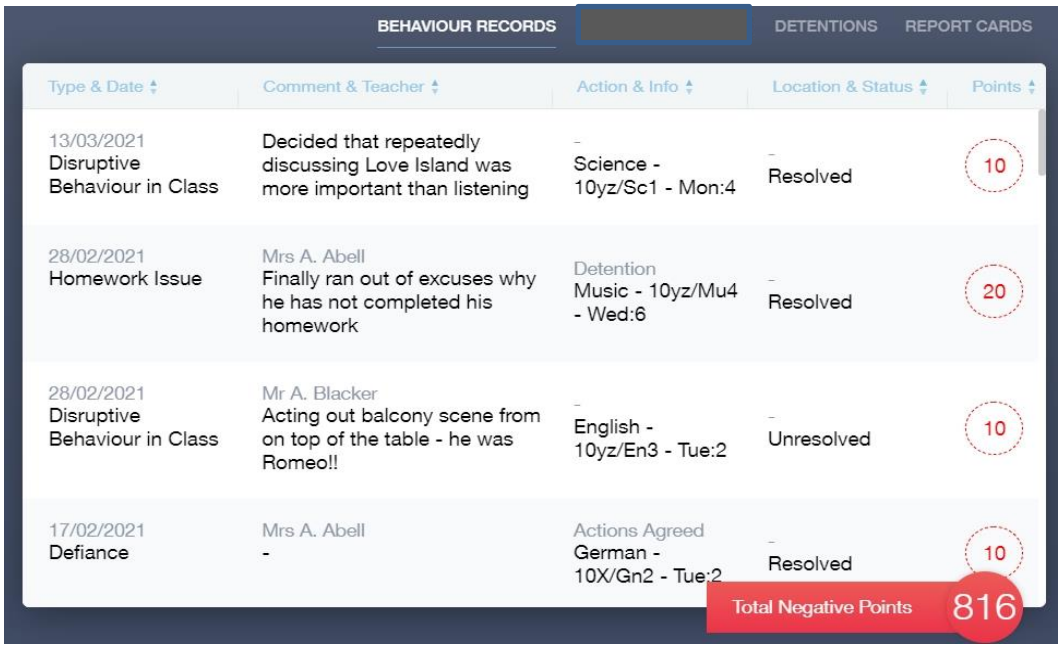

Behaviour

The behaviour button will give you access to **view behaviour records, detentions and lesson behaviour,** which have been assigned to your child. Information on detentions and graphs on lesson behaviour are also shown.

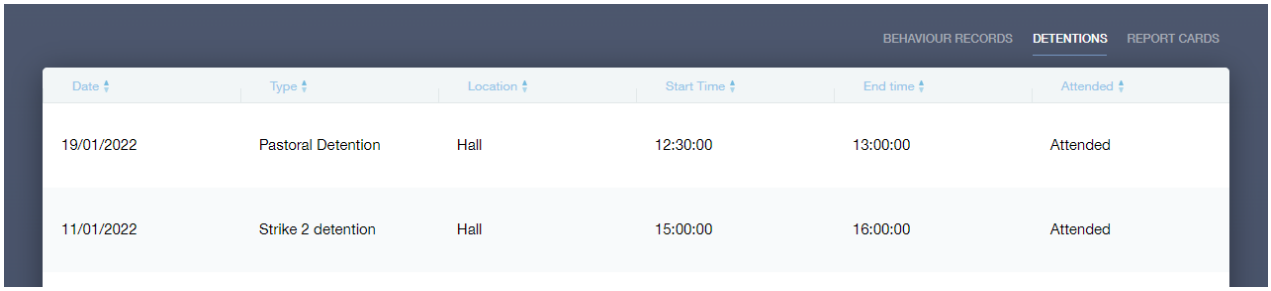

Behaviour Records Tab

This tab will show you detailed information about any behaviour incidents which have been logged on Edulink One by staff. As the example below shows, each behaviour incident that has been recorded will show you when the incident occurred and details about the incident such as the type, location and the action taken.

Detentions Tab

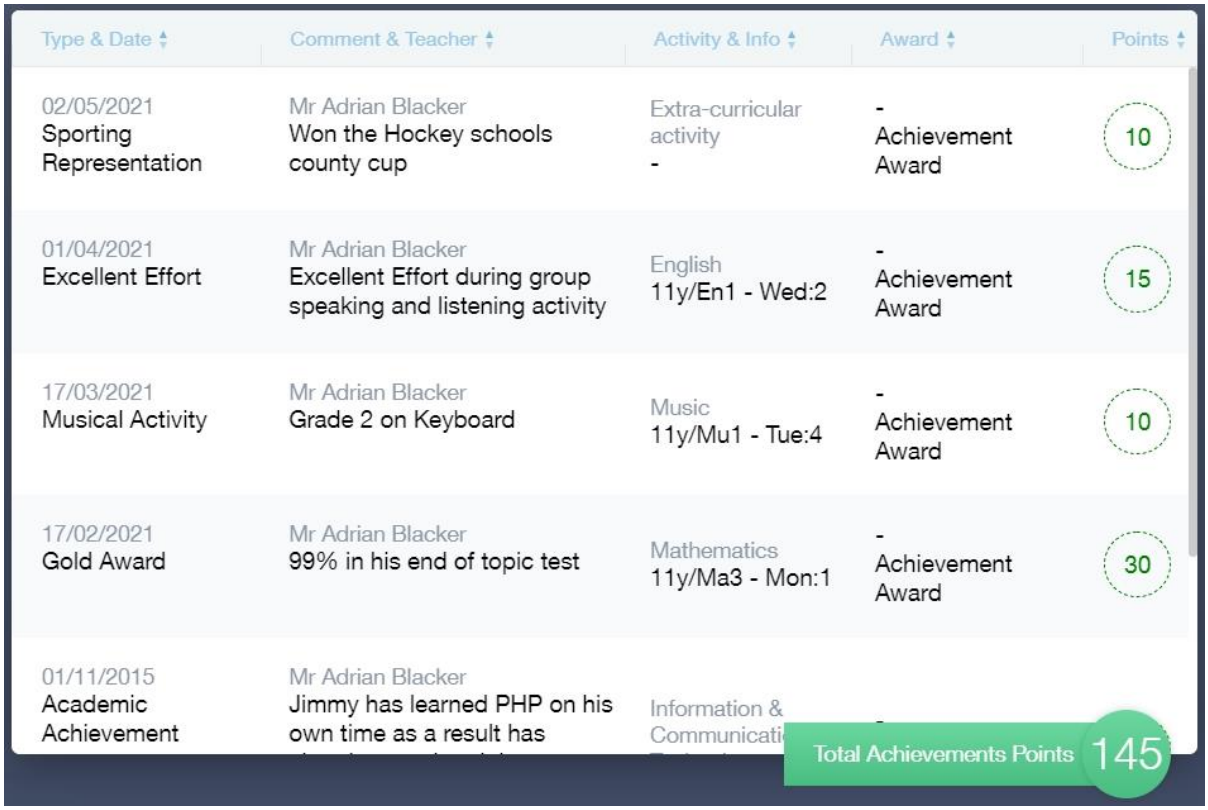

The detentions tab will show you any detentions which have been assigned to your child, including the date, start and finish times, the location and whether your child has attended.

Achievement

This section is where you can view information on positive achievements that have been awarded to your child. Very similar to the behaviour section, you are able to see who awarded the points and the reason for the award.

Medical Info

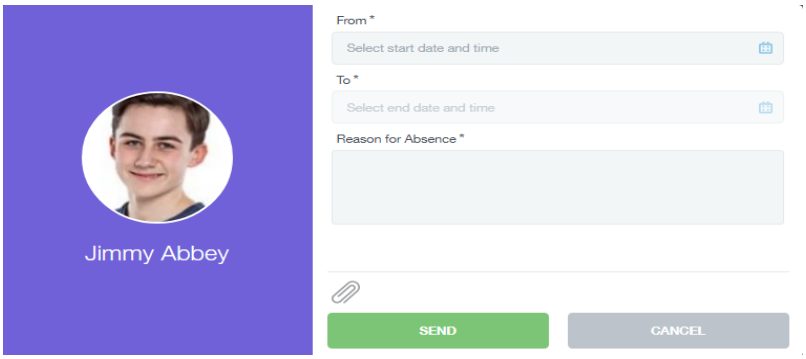

This section contains medical information that you have supplied to the school regarding your child. Details on medical conditions, medical notes, medical practices, and medical events such as appointments can all be viewed here. Allergy lists and other attachments can be downloaded in PDF format.

Absence Reporting

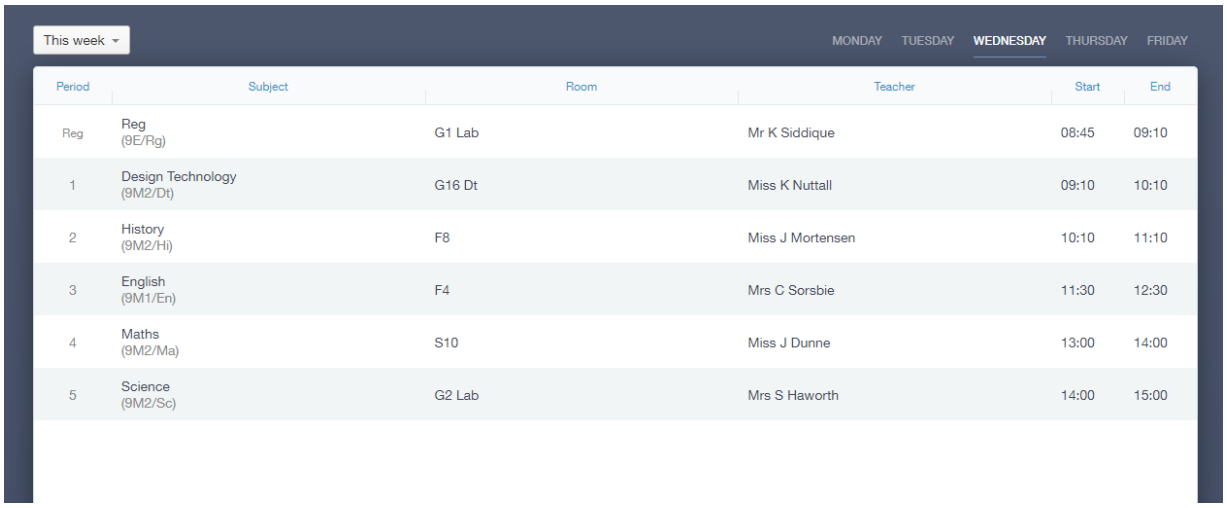

This feature allows you to send a direct message to the school's attendance officer to notify the school of your child's absence or upcoming absence.

The example below shows you how to select the time and date for the absence request and the reason for the absence.

Timetable

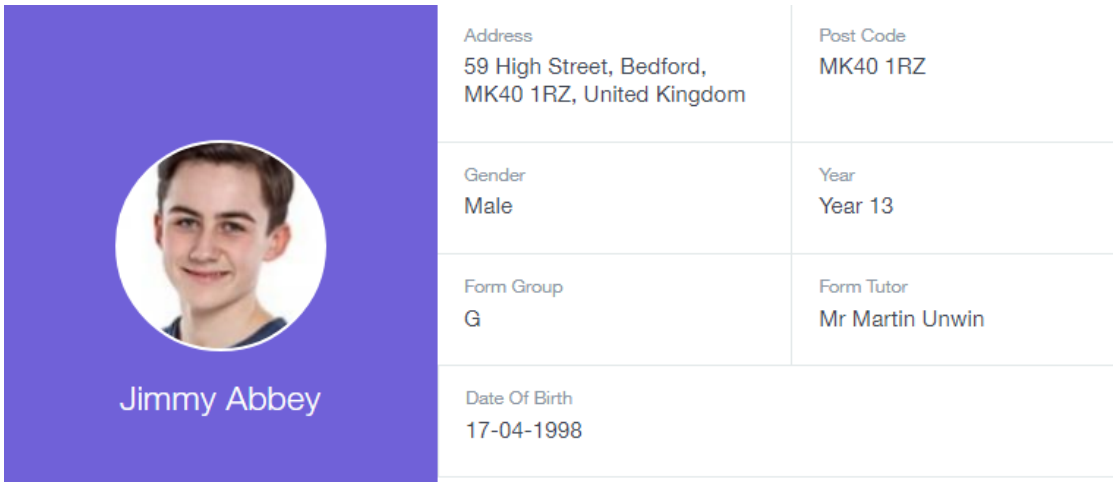

Parents and students both have access to this section, which allows you to view your child's school timetable. This shows you information on what lessons your child has each day and who the teachers are for those lessons.

Account Info

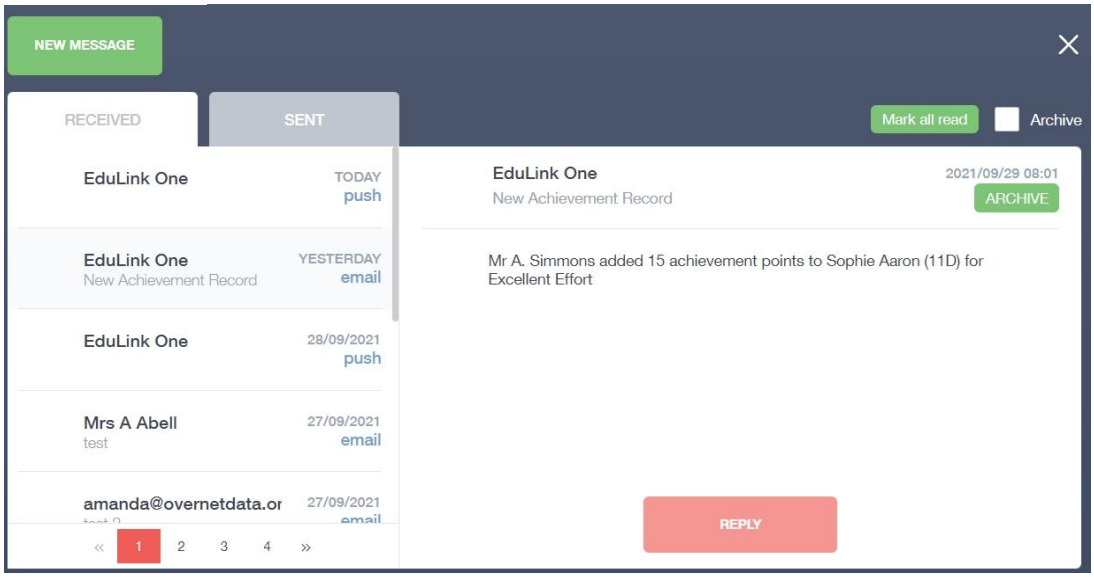

Here you can view the current address details the school has on file for your child. Other information on your child's year group, house and tutor are also available.

Messages

The message button can be found in the bottom right of the screen. Here you can read messages that have been sent through to you from staff at the school

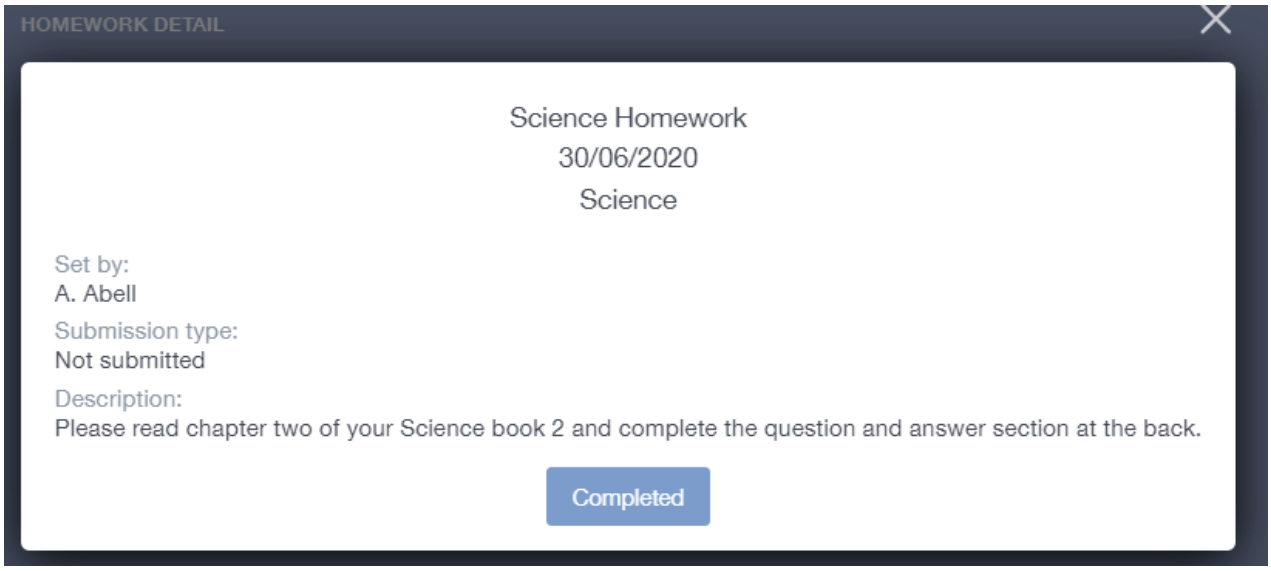

Homework

The homework section operates as a standalone homework system where teachers can set homework through Edulink One. Students can see what homework has been set when it is due and they can also mark it as completed.

The student and parent will see the homework in a list format; this can be organised by clicking on the headings.

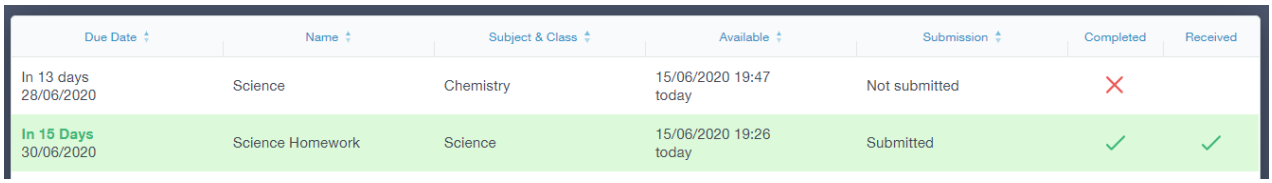

The student and parent can then click on the text of the homework to read the requirements. To exit this just click on the **X** in the top right corner.

Once the student has completed the homework assignment, they should click the **Completed** button to notify their teacher the work has been done. It is important to note that parents can only view set homework.

They would need to provide a title, subject and due date and some text of what this activity is about. This could be used to show teachers extra work completed.

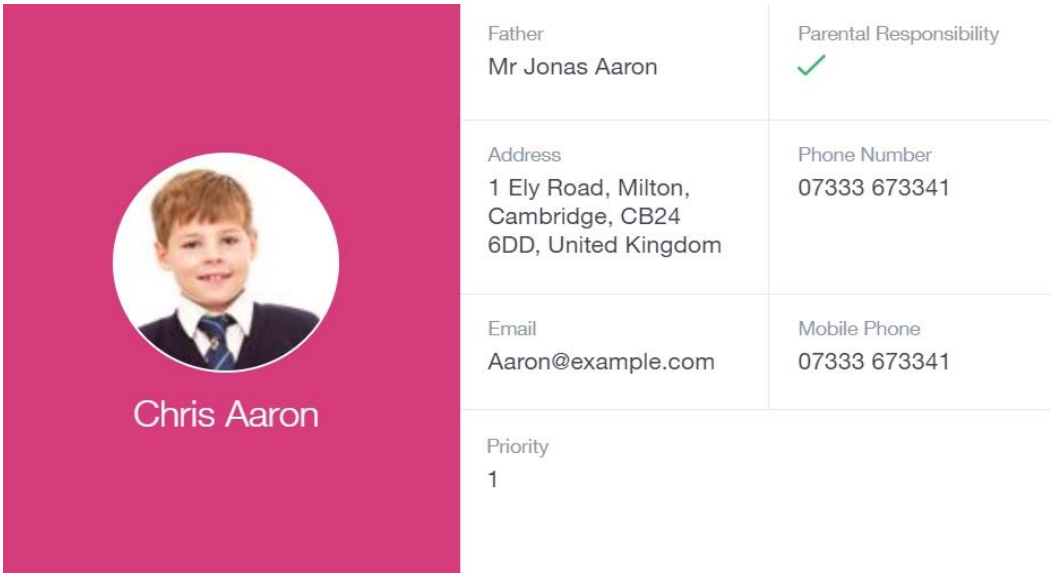

Due Date	Name	Subject & Class	Available	Submission	Completed	Received
