Notice there are 15-minute gaps between each 'lesson'. This is to enable you to take a comfort break, get a drink, move about etc. Each lesson is approximately 1 hour.

Allow some relaxation time and time for you to complete your own studies that you may not have had time to fully understand. At the lunch break, morning break or after your study time, some time should be allocated to communicate with your friends using whatever electronic contact you would usually be allowed

Work will be set each morning through Show My Homework and will be accessible from approximately 8am. PE may set alternative exercises to those shown in the timetable to add variation over the weeks.
