

OPPORTUNITY + SUCCESS = PRIDE CONFIDENCE

- Getting involved in clubs outside of school offers opportunities to try new activities
- These activities will lead to success in new and exciting areas
- This in turn will make you feel proud and help build your confidence.

- You will develop skills such as problem solving, teamwork, communication and leadership.
- You can link these skills to the challenges in your 'Passport to Success' (Years 7 & 8)
- The activities coloured orange are for students who want to be challenged and work at a higher level and therefore may not be suitable for some students - ask your teachers for more advice!

- All clubs run to 4:30
- All activities are free although there may be small charges for equipment for certain activities – staff will give more details where applicable

Maths Club

These sessions are for students who enjoy the challenge of mathematics and want to practice their skills and improve their understanding.

Wednesdays – G57 – see Mr Mann

Maths – Problem Solving

Through hands on, fun activities you can explore and develop your problem-solving skills. These sessions will help you understand the importance of maths around us and become a more confident, independent thinker!

Tuesdays – G59 – see Mrs Conlon

MUKMT Maths challenge

These sessions will prepare students for participation in the UK national Mathematics challenges – aimed at able Maths Students

Wednesdays – G46 – See Mrs Gallagher

Maths Whizz
