**Opportunity, Success, Confidence, Pride**

My time at Sixth Form taught me to take initiatives with my learning and become more independent. I knew my teachers would provide support at any time I needed it. The careers advice and guidance I was given was especially helpful when I was researching apprenticeship pathways as I was able to understand the next steps, I needed to take to achieve my goals. I have now started with the NHS on a degree apprenticeship as an Operating Department Practitioner.

*Leaver 2022*

I studied Sociology, Religious Studies and Media and really enjoyed my time in Sixth Form. I am now at University studying Primary education. One of the best things about the Sixth Form is the amount of support you are given, be that academic or pastoral, as well as the different experiences that are offered.
