

**Tuesday 14th July:** Good morning! Enjoy some more summer-themed learning with today's range of activities.

**Daily reading**

When reading, it is important to differentiate between facts and opinions.

A **fact** is a true statement.  
An **opinion** is what someone thinks.

Look down the list and decide which of these sentences are facts (F) or opinions (O).

1. January is the first month in the year.
2. Madrid is the capital of Spain.
3. Football is the best sport.
4. It is 19°C today.
5. Sammy's hair looks better when it is long.
6. I am really good at running.
7. I am shivering.

Read the following text, then answer the fact and opinion statements.

Fact and Opinion

## UK Festivals

There are many festivals all over the UK where families can listen to music and enjoy the atmosphere with great food and good company. Families can choose to camp on a festival campsite, where it is very exciting to sleep outdoors. Some people enjoy larger festivals, such as Glastonbury, whilst others prefer smaller festivals such as Beautiful Days in Devon. I would definitely recommend a festival for a family holiday as it is great fun.

Decide whether each of these quotes is fact or opinion:

1. There are many festivals all over the UK.
2. Families can listen to music.
3. Great food and good company.
4. Families can choose to camp.
5. It is very exciting to sleep outdoors.
6. It is great fun.

## Daily times tables

Help the frog find the path through the lily pad maze by counting on in sevens from zero.

Either play the following activity as a game or connect the answers to each of the questions.

# Converting Units of Time Board Game

## Instructions

Each player must choose a space to start from and place their counter on it.

The first player rolls the dice and moves their counter clockwise.

They must answer the question in that square, find the answer on the correct shell and cover it over.

The next player will take their turn.

If a player lands on a square where the answer has already been covered, they must miss a go.

The winner is the player who has covered the most shells.

If you would rather learn maths through a more practical task - try this:

Create a timetable for the activities that you are planning to do today, i.e. 7.30am – 7.45am (eat breakfast); 8.05am - 8.07am (brush teeth); 9.05am – 9.10am (unload the dishwasher/dry the dishes) etc. Then calculate the duration (how long) each activity is going to take.

Practise reciting this traditional rhyme to help learn how many days are in each month:  
 30 days hath September, April, June and November,  
 All the rest have 31, excepting February alone.  
 Which only has but 28 days clear and 29 in each leap year.
