

## Science

The children will be learning all about animals, their habitats and we will be matching animals to their offspring. We will explore the textures of the skin and fur of these animals by using toy animals and researching what this looks and feels like. In line with planting last term, the children will observe the seeds we planted and use simple descriptive language of the changes they have noticed in the banana plant we have in the class. They will record their findings of the changes by measuring and drawing what they see.

## Literacy

The children will continue to look at language comprehension, word reading, and writing skills. They will enjoy sharing stories, songs and rhymes and discuss key events in stories. They will continue to use their word mats to support them when writing and be encouraged to do this independently. Read, Write, Inc. will continue to be delivered in groups daily to ensure children's knowledge around sounds, blending and reading aloud continues to grow. The children will read daily with adults and be encouraged to share the stories they have chosen with the class.

## DT

The children will be learning about:  
Homes of the future

## Art

The children will be introduced to basic tools and simple stitches through hands-on projects. These activities will support the children to develop their fine motor skills, hand and eye-coordination and concentration on a task. The children will begin to identify and use different forms of textiles and fabrics

## Emotional Quotient

The children will be learning about:

Building trusting relationships

PSHE/British values

Physical health and mental well-being

Growing and changing

Keeping safe

## Savernake

Term 6 2024

## History

In term 6, the children will be learning about The Ancient Egyptians. They will compare past and present by describing objects and artefacts from these eras. The children will be making a 3D pyramid, designing a Pharaoh's crown, and decoding hieroglyphics in addition to creating a Mummy as a class where they will investigate the stages of mummification. These activities offer hands-on learning and introduce basic concepts of ancient Egyptian culture.

## Maths

In term 6, the children will be gap filling and building on their pre-taught knowledge to ensure their learning is embedded. They will look at measure by using rulers, they will make matches and compare sizes, and stations will be set up around the classroom where children can measure and record their findings.

## RE

The children will be learning about Sikhism by continuing to foster understanding and appreciation of different cultures. They will focus on key aspects like the belief in one God, the Five Ks, and the importance of service. They will begin to understand the traditions and celebrations Sikhs partake in.

## Computing

The children will continue to follow the 'Project Evolve' scheme where they will learn fundamental skills around keeping safe when online, how they can keep safe and what they need to do should they feel worried or anxious about things they may become exposed to.

## PE

Savernake will be engaging in activities that focus on developing fundamental movement skills like running, jumping, and throwing. The children can explore their movement abilities, develop a love for physical activity, and learn basic sportsmanship by partaking in athletic activities. This will also build their skills before partaking in sports day.
