

Task 1

What do these rocks have in common?

Why are these pieces of land sticking out?

Why has this land eroded?
What does that even mean?

Task 2

What evidence is there that the processes we are learning about have happened already? 2 sentences

Task 2a

Task 3

On your task sheet post a picture of somewhere in the UK that you feel has been affected by the waves as much as this headland

1. Make sure you include its location

Watch these clips about erosion and create 2 lines about each process on your document
