

English & Maths

Wednesday 11th October 2023

Dear Parent,

At Oakfield we are lucky to have a great number of Primary and Secondary specialist Maths and English teachers. This gives us the flexibility to constantly review our pupil needs and national research when deciding how to group pupils for lessons.

Given the disruption to learning that has happened in the last few years and the significant impact this has had on the needs of pupils, we have been trialling changes in ways that pupils are grouped to find what works best for Oakfield pupils. More recently, this has included some changes for some classes since September in English and Maths (many pupils have not been impacted by any change). We have appreciated the resilience and support of staff and pupils while exploring what works best for as many pupils as possible. We are currently monitoring these arrangements and will contact you again at the end of the Autumn Term.

If you have any questions, please contact the Head of Department.

Yours Sincerely

Mrs C. Cross
Deputy Headteacher

Mr T. Charlesworth
Head of Maths

Mrs M. Roynon
Head of English
