

Food Technology – Year 8

OAKFIELD ACADEMY
BELIEVE AND ACHIEVE

March 2021

Dear Parents,

It is with great pleasure that we will be able to commence practical cooking sessions with Year 8 week beginning the 15th March.

Given the unprecedented times, I would like to make some suggestions to enable us to provide these sessions whilst maintaining safe levels of protection for all involved. Staff will be wearing masks and aprons at all times to enable safe supervision and support of pupils in a practical environment. We would appreciate if students could also wear masks throughout the session.

We would suggest that your child brings their **own apron** for these sessions, we will not be providing aprons. It is also really important that your child has a **suitable container** with a lid to carry home each dish they make.

Students will be expected to provide their own ingredients. Recipe sheets will be issued to student's week commencing 8th March. If your child loses their sheet they will be able to check their journal to see what they should be cooking and all recipes are on the website in DT Curriculum's documents if needed or on their google classroom. All recipes involve ingredients being prepared and cooked at a high temperature. Students will be encouraged to cover and label their own dish at the end of each session.

Thank you in advance for all your support in allowing us to provide these opportunities for your children. In anticipation of their amazing creations,

Yours faithfully,

Miss P Nightingale
