

IF YOU WERE an **ENGINEER** WHAT WOULD YOU DO?®

Visit a local school to present to and be interviewed by pupils in person.

Register to take part at <https://leadersaward.com/join-us/> - and let us know how you would like to be involved.

Engineering Professionals only

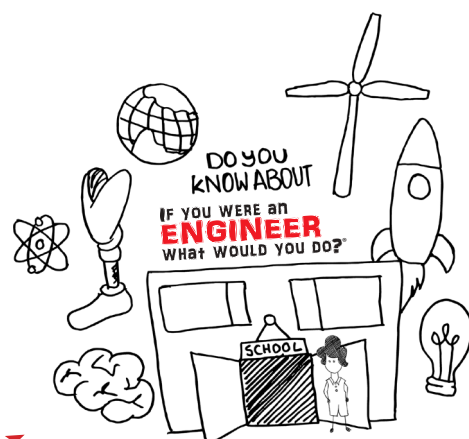

Take part in an online interview where children from all over the country can benefit from your presentation.

Create a short presentation about yourself, your role and your industry.

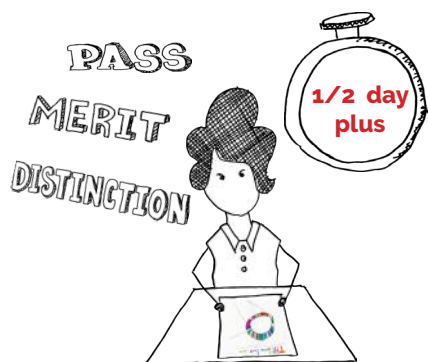

Engineering Professionals only

AND/OR

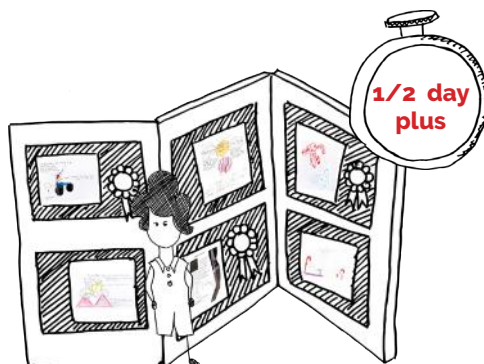

OPEN TO ALL

Take information into a local school asking if they are already part of the Leaders Award.

OPEN TO ALL

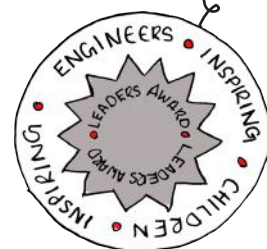

Attend a grading day and grade and shortlist the pupils entries alongside other judges.

OPEN TO ALL

Attend exhibitions and awards events to speak with parents/ carers and family members.

Get a badge & a certificate

Enjoy the experience so much you want to do it all over again next year....

IF YOU WERE an **ENGINEER** WHAT WOULD YOU DO?®

Support the 'If you were an **ENGINEER**, what would you do?®' competition.

'If you were an engineer, what would you do?®' asks pupils from primary and secondary schools across the U.K. to interview engineering professionals, identify a problem and design a solution to it enabling them to be inspired by engineering professionals and 'find the engineer they could be' by designing the future of engineering. In 2018/19 over **49,000** pupils took part.

Engineering professionals around the U.K. are invited to get involved by being interviewed by pupils in schools or by live video interviews, to help grade and shortlist entries at grading days up and down the country and by helping at the awards events and public exhibitions which happen in 19 regions. Of course we'd love for you to take it into your own children's schools too.

Every engineering professional who helps out whether it is being interviewed, help grade or to help at the awards events and public exhibitions receives a limited edition badge and certificate!

Find out more about the competition on the website: www.leadersaward.com, contact info@leadersaward.com for more information and sign-up to our newsletter, follow us on Twitter via [@Leadersaward](https://twitter.com/Leadersaward) or do all three!
