

Art 2022-23

Additional notes for the *Intent, Implementation and Impact* section

KS3

Timetable changes for the KS3 pupils meant that the Arts Award 'Discover' area was suspended part way through the activities. It is hoped that the Arts Award programme will commence again at some point during the academic year, 2022-23.

KS4

The 'Wellbeing' activities for all KS4 pupils proved extremely successful during 2021-22. With the introduction of the pottery, the majority of pupils enjoyed working with clay and the opportunity to create artwork which was of interest to them.

Following a substantial donation of textile materials and equipment during the summer, the 'Wellbeing' activities will hopefully not only continue, but develop. Plans have been made to extend the display areas around the school so that all pupils, irrespective of their ability, will have their 'Wellbeing' work displayed.

Additional notes for KS3 Art, Term 1, 2022-23

Macbeth is being taught in English during Term 1. This provides an opportunity for a cross-curricular project; Art and English. Pupils will use the text to create characters and props and use them in a drama production.
