02. Solving problems involving divi
03. Solving problems involving divi
04. Calculating and interpreting the
05. Developing strategies to plan an
06. Adding 2 or more numbers me
07. Calculating across zero
08. Investigating properties of num
09. Exploring properties of palindro
10. Exploring properties of number

- Open your One Note Math book to the correct section and find the correct page
- Click on the link in blue to begin your lesson

Calculating intervals across zero

In this lesson, we will investigate and model problems involving negative numbers.

Start Lesson

- 
- Once you click on the link the above page should open.
 - Press the '**start lesson**' button to begin
- 

- Play the video that appears and follow the instructions as they show on screen- you will need sound, a pen/ pencil and some paper.

> English

Teacher View Exit Lesson

Video

Click on the play button to start the video. If your teacher asks you to pause the video and look at the worksheet you should:

- Click "Close Video"
- Click "Next" to view the activity

Your video will re-appear on the next page, and will stay paused in the right place.

< Back Next >

- When the video is complete or you have been prompted, press next.
- You can then return to one note and complete the worksheet by double clicking where you wish to type and entering the answer.

Miss Darwish

Independent Task

Complete the table below, showing the Goal Difference for Women's football.

Team	For	Against	GD
Brazil	7	1	
Canada		2	-1
Japan	5		-1
Zimbabwe	3		-4
