

Our Lady of the Assumption Catholic Primary School Care – Learn – Respect

Thank you to our young people and their families who took part in the Catholic Schools Lenten Liturgy last Tuesday evening. This is a beautiful tradition which runs alongside our own Lenten reflections creating a moment of stillness and thoughtfulness. Well done to our Year 3,4 ,5 and 6 children who volunteered to contribute to this event.

Meet Luce

This is the mascot for the Year of Hope. Luce – or light - has been gifted to us by the central team at BEBCMAT.

She will be joining us at events this year as we journey through the Year of Hope

Our Lady of the Assumption Catholic Primary School

Care – Learn – Respect

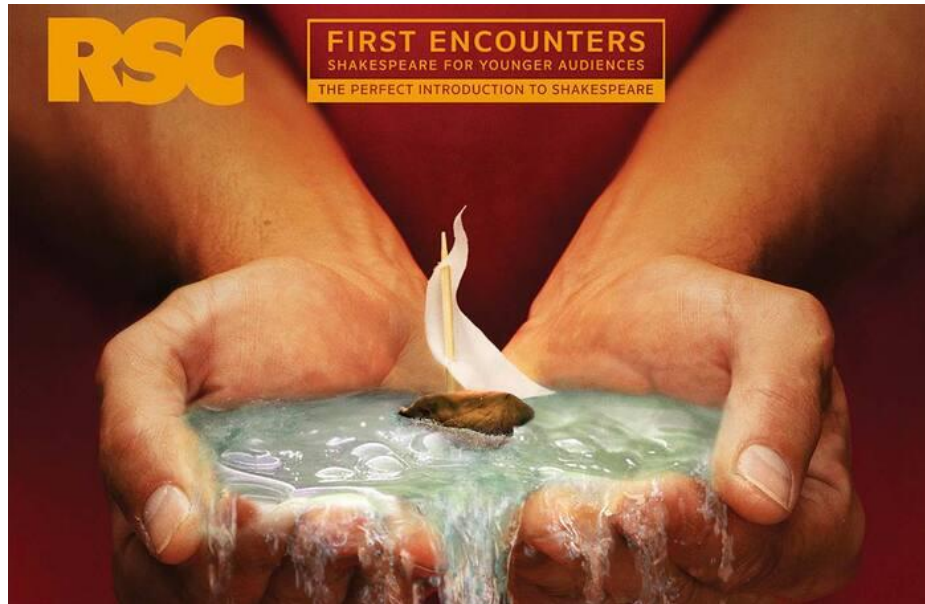

Science Week Adventure

The theme for the science week was adaptation and what a week it was. On Monday we had a visit from a bird specialist who brought us hawks and owls and had the children transfixed as they watched and learned about these beautiful creatures. On Tuesday our whole school were the audience and judges for the year 6 fashion show with Alexander and Harriet going forwards to represent our school in the BEBCMAT finals. Then on Wednesday we had reptiles sharing with us the many ways that they have adapted to survive and thrive. These were themselves very informative and educational as well as serving to focus our in class work.

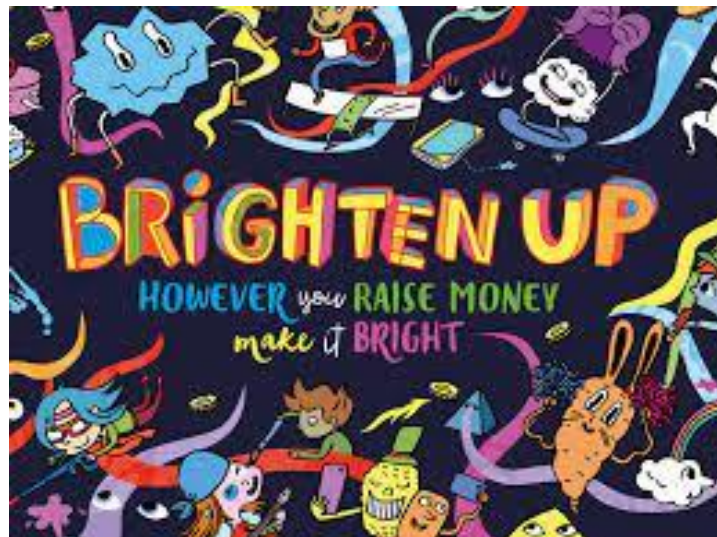

Our Lady of the Assumption Catholic Primary School Care – Learn – Respect

This week our Royal Shakespeare Theatre group will be putting together the final touches to their after school rehearsals and sharing their work on Tuesday evening at The Grand Theatre. Our children have worked with local and national professional actors and producers as part of this work, giving them memorable and high quality opportunities to contribute to their own performance.

A reminder on Friday this week that children are invited to come into school in bright clothes for CAFOD.

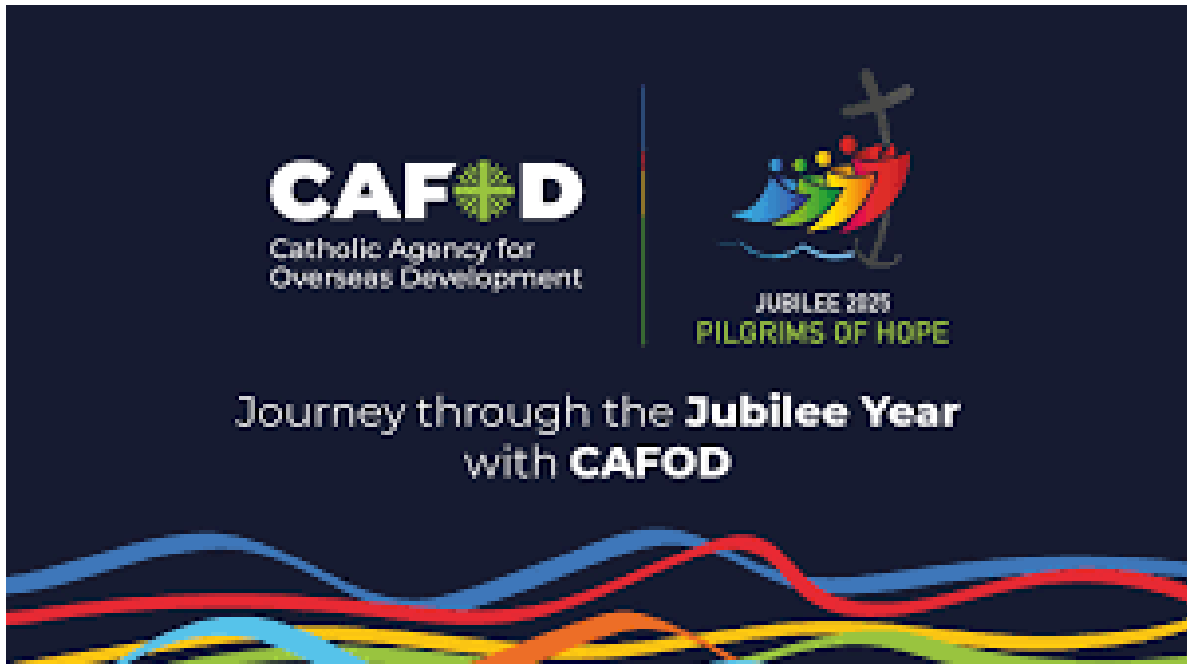

You may remember that Miss Heim- Sarac is preparing to run the London Marathon for Cafod and as a whole school we are working to support her work. Please make a voluntary contribution to this project.

Our Lady of the Assumption Catholic Primary School Care – Learn – Respect

To link with our Jubilee Project year we are running the distance from our school to Rome. The running club set us off on Thursday after school running 122 laps of our field. Over the next few weeks every pupil will be running their own laps to contribute to the total distance.

Sponsor forms will be sent home this week.

Parent Information Sessions Today

We look forward to meeting you later today. A reminder that pre loved uniforms will be available. Please consider taking this as spares and making a contribution to Cafod.

Laura Quinn from the South Shore Family Hub will be in the hall and can answer any questions about every sort of resource for parents in the area. If she doesn't know the answer she will find out. So please do stop and chat.

Our Catering team will also provide a taster menu in the dining hall during the afternoon, from around 1.45pm.

Thank you for your continued support
