

Answer Sheet

Remember, (M) is written next to those questions you should have tried to solve mentally first. (W) means a written method is usually more efficient for this question.

1. $186 + 70 = \mathbf{256}$ (M)

2. $5,667 + 3,334 = \mathbf{9,001}$ (W)

3. $3 \times 7 = \mathbf{21}$ (M)

4. $161 \div 7 = \mathbf{23}$ (W)
