Parents – Try to keep the Yellow tasks going each day. Green times are for your child to do things for themselves and for you to relax – leave them to it! The Pink times are when they should be doing one of our homework jobs, but don't be afraid to tell them to get on with the task – we planned them to be achieved without parents having to teach. The Blue times are winding down activities before tea time. Don't ask them to do anything work related after this point! Please don't worry about how much you get done – we will pick up the rest when we get back together. Keep the Yellow jobs going and get some of the pink jobs done and it'll be fine!
