

Expand your learning

For the Summer term we are doing something a bit different with the Expand your Learning.

All students will sit important end of year assessments in the final half term. In order to prepare and practice for these assessments we are setting the same theme across all subjects.

Can you prepare a set of revision resources for each subject, this could be in the form of written notes, a powerpoint, a poster, a mind map, flashcards, practice exam questions or something novel and unique that helps you revise.

There are 50 positive points on offer for each piece submitted. If you can show your revision to your class teacher in every subject there would be 600 points in total. Who will be our top scorer?
