

14th September 2023

Dear Parents / Carers and Governors,

I am sure you will have seen a lot of coverage of RAAC concrete roofing on the media. Following guidance from the Department for Education, Bishop Hogarth Catholic Education Trust carried out a survey of each of our schools' building materials last year. The safety of the children and staff is our highest priority and through an abundance of care we made sure that we were aware of any RAAC in our schools.

We are confident that our surveys are accurate and that your school shows no signs of RAAC.

Thank you for your patience and understanding and please be confident we have the safety of the whole school community as our first priority at all times.

Kindest regards

Mike Shorten
CEO
