

READING FOR PLEASURE IN ... SCIENCE

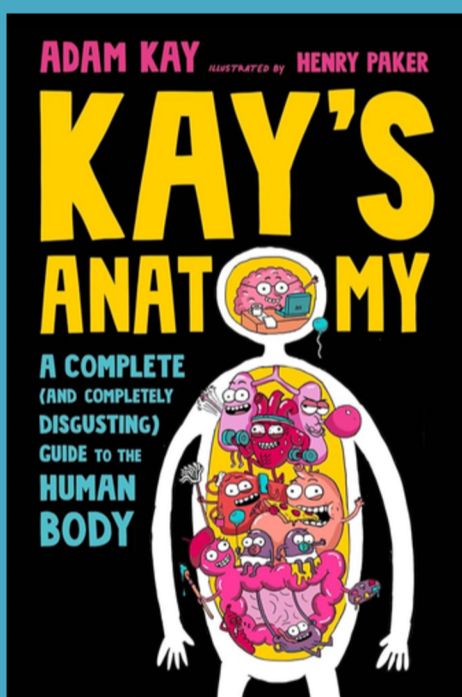

Women in Science celebrates the achievements of the intrepid women who have paved the way for the next generation of female engineers, biologists, mathematicians, doctors, astronauts, physicists and beyond

Women in Science: 50 Fearless Pioneers Who Changed the World

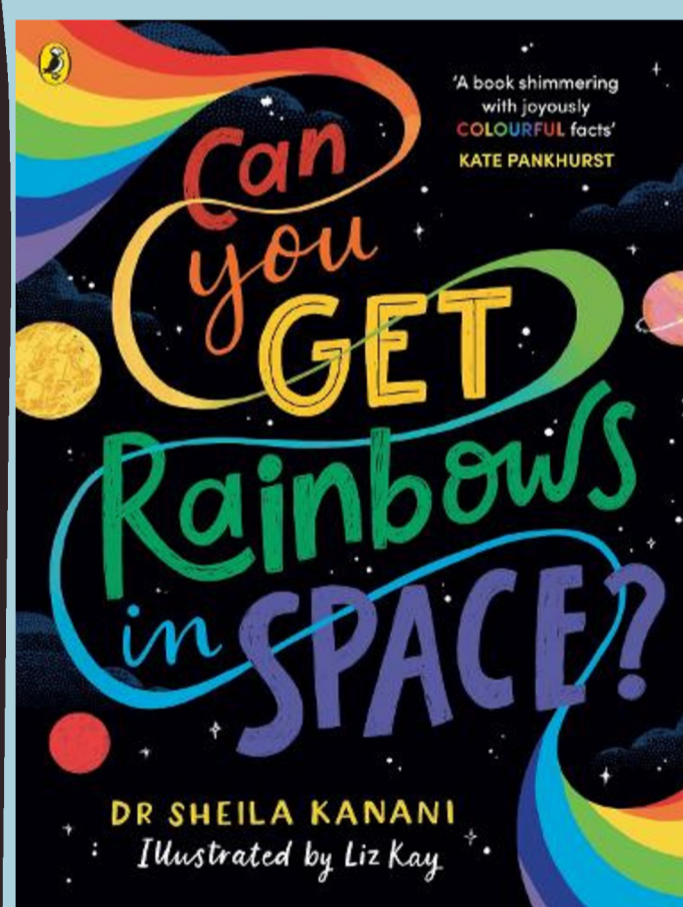

Far in the future, the World Controllers have created the ideal society. Through clever use of genetic engineering, brainwashing and recreational sex and drugs all its members are happy consumers. Bernard Marx seems alone harbouring an ill-defined longing to break free.

Brave New World - Aldous Huxley

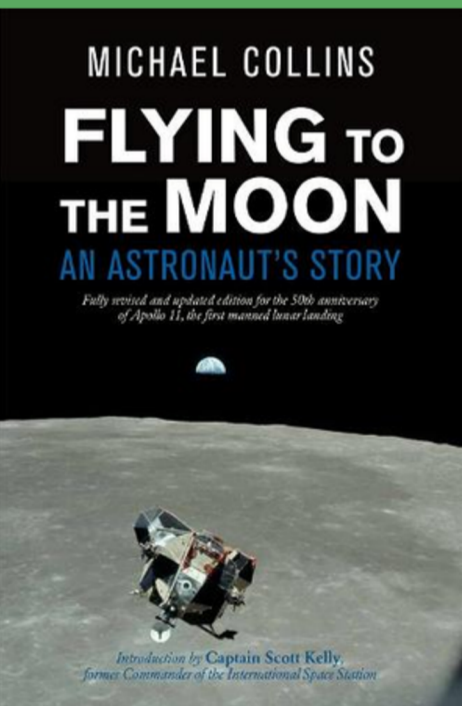

Adam Kay, author of the smash hit This is Going to Hurt, dissects the mysteries of our bodies on a hilarious and deliciously disgusting tour of our insides for younger readers.

Kay's Anatomy - Adam Kay

Why is blood red? Why are carrots orange? Who invented the lightbulb? Why is the world 'going green'? Is the sky really blue? And what is ultraviolet light?

Can you get Rainbows in Space - Dr Sheila Kanani

In this captivating account, space traveller Collins recalls his early days as an Air Force test pilot, his training at NASA, and his unparalleled experiences in orbit, including the Apollo 11 mission, the first manned lunar landing.

Flying to the Moon: An Astronaut's Story
