

Art (Y1) – Natural Beauty Printing

Prior Knowledge

- Paint (and ink) can be transferred to another object by pressing against it (Rec)
- Flowers grow from seeds (Rec)

Belonging

Colour

Wonder

Key Knowledge

- There are different types of art including painting, collage and sculpture.
- We can use different objects, such as leaves, to print shapes and patterns.
- Images can be created by creating impressions on blocks and printing onto surfaces.
- Eric Carle is an author and illustrator who wrote many books including The Hungry Caterpillar and The Tiny Seed.
- Eric Carle is known for his unique and colourful collage illustrations.
- The primary colours are red, blue and yellow. The secondary colours are orange, purple and green. Know which primary colours mix together to make the secondary colours.

How can I capture the beauty of nature through art?

Key Vocabulary

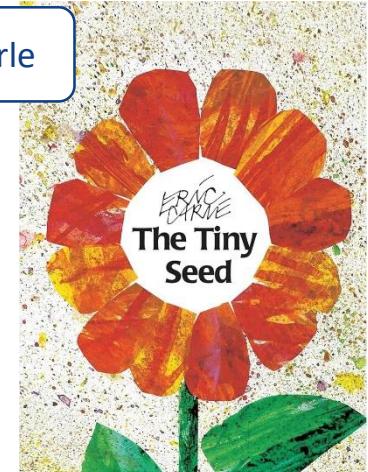

Printmaking

Making pictures by printing them from specially prepared plates or blocks

Printing Block

A block made of polystyrene (or another material) which is carved with a design, and then ink or paint is put onto the block to create a printed image.

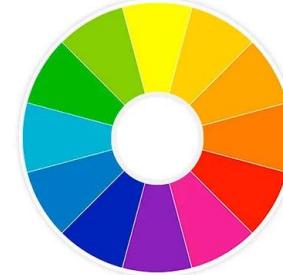

The Tiny Seed by Eric Carle

Print roller

Polystyrene tile

$$\text{RED} + \text{YELLOW} = \text{ORANGE}$$

$$\text{YELLOW} + \text{BLUE} = \text{GREEN}$$

$$\text{BLUE} + \text{RED} = \text{PURPLE}$$
