

## Elf Class update    Week ending 4.3.2022

This week in IPC the children sorted animals, according to their appearance and whether they lay eggs or give birth to live babies. They were able to name the animals and then say if they belonged in the fish, bird, mammal, reptile or amphibian group. They also discussed the features of some animals that on first appearance might have been in one group but were actually in another group, for example a bat or a penguin. They really are beginning to understand how to categorise animals into different groups.

On Thursday we celebrated World Book Day. The children came dressed as their favourite book character, their outfits were incredible and it was a very difficult task choosing a winner. Throughout the day we had the opportunity to read so many lovely stories, which the children had chosen for us to read, it really was a day well spent. Well done Elf class.
