

Fairy website update 06.11.19

We have had a great start after half term. Fairy class have been eager to get back to their learning at school. Thank you to all parents for contributing to our successful International Day exit point last term. This term the buzz is all about transport! We were allowed to bring our scooters and bicycles to school for the morning, we went on a trip and we even have a train station in our classroom! Thank you to parents and children for the amazing model vehicles.

Counting traffic on Ladbroke Grove Road

Maths

We have been learning about one more and one less. We know how to show one more and one less on our fingers, using objects and even using a whiteboard. Some of us are even writing equations like: $6 + 1 = 7$.

Literacy

We are continuing to learn our letter sounds and for some, how to blend and read simple cvc words. This week we have been writing lists. See if your child can help you make a shopping list!

Many thanks for your continuing support.
