

Fairy website update 11.10.19

We've had a very busy half term in Fairy Class with Mrs Scribani and Miss Macmillan. We've read lots of fun books including Owl Babies and Rainbow Fish. Owl babies taught us all about our feelings and Rainbow fish taught us about sharing with others. We also have a friend on our class called Lionel Leopard and we're all going to get a turn to take him on home adventures with us!

In maths we have been learning about 2D shapes. We even went on a shape hunt around our school! We saw shapes everywhere! Circle shaped bottle tops, triangular rooftops, square fences, rectangular bricks and even a hexagon on the sand timer! Fairy class are really smart at finding shapes in the environment.

Octagon!
