

Pixie Class

12.02.2019

What a great half term! We covered so much and everyone tried so hard.

Our topic for the next half-term is my favourite, Space. We will be investigating all the planets, looking at the stars and rocketing to the moon.

We are continuing with Phase 2 phonics over the next half term with all the children now working on the letter sounds, building up to blending those sounds into words. We use the Ruth Miskin system which has a prescribed format that works well. Be ready to hear "Maisie mountain mountain" and "slither down the snake!"

In Maths, we are continuing to work with number, shape, pattern and measure.

Also there will be plenty of opportunities to build, paint, make believe and sing.

Thank you for all your support.
