

Pixie Class

08.05.2019

Wow! Into the last term, doesn't time fly. Everyone has grown so much, and doing so well.

Our topic for this half-term is Planting. We have investigated seeds and fruit, and hopefully we will do some real planting soon.

Our phonics is going really well. This term we have begun to get the children to write their names every morning. It would be absolutely super if you could get your children to practise at home. They may surprise you with their letter knowledge.

In Maths, we are still working with our numbers to 10 and beyond. It would also be great if you could support you child at every opportunity to recognise numbers they see in the environment.

The children are building on their friendships and engaging in many different activities throughout the day.

Thank you for all your support.
