

Pixie Class

02.12.2020

Out of lockdown and heading towards the end of term! What an odd term. Thank you for being so obliging and following the protocols in this time of Covid. The children have been amazing and adapted beautifully to our learning environment.

Our topic this half term is still Food. We have been looking at what happens on a farm and at present different foodstuffs and traditions from around the world. If you have any traditions around food, please feel free to share them with us.

In literacy we are still continuing with Phase 1 phonics which entails developing our speaking and listening skills, laying the foundations for phase 2 phonics after Christmas, when we begin our letter sounds and early blending. We have been focussing on the first sounds of words eg c-c-cat and making silly soup with them.

In Maths, we are continuing to concentrate on number, shapes and size. We are continuing to build on the foundations established in the first half term, by following and broadening the children's interest. Mostly we have focussed on number, counting and writing numerals, as well as 2d shapes, patterns and length.

Thank you for your continuing support, and please feel free to discuss any area of your child's learning where you have concerns. Also please remember to fill in the feedback forms and return them as this is always very helpful for the school.
