

Unicorn Class

06.11.2019

Now the half-term is behind us, we are working towards Christmas with our new topic on Transport.

Maths

We have been working on numbers and equations, one more/one less.

Literacy

We are continuing to learn our letter sounds, how to form our letters and how to blend the letter sounds to read simple cvc words. We have also been looking at how to write lists and labels.

Understanding of the World

We have been learning about transport. We have been looking at the different types of public transport and will be looking at vehicles used in construction and by our emergency services next. Thank you for all the vehicles the children built over the half-term break.

Unicorns are progressing well and we are so lucky to have so many lovely learners.

Many thanks for your continuing support.
